SILOMA dal 1968

SILOMA si distingue per la produzione di camere per ragazzi multifunzione, sicure e salvaspazio.

Da sempre, il brand coniuga la volontà di portare emozioni nelle camere di bambini e ragazzi con l'attenzione al continuo mutamento delle loro esigenze: la stanza da letto si apre così a nuove soluzioni, ospitando l'angolo studio/gioco/relax. Le proposte d'arredo Young & Kids sono personalizzabili ed estremamente flessibili nel tempo.

Filosofia

SILOMA concepisce la camera per ragazzi come la stanza che, più di ogni altra, deve sapersi adattare ai rapidi cambiamenti di chi la abita. Questa idea di design si traduce in arredi modulari dedicati al riposo, al gioco, all'apprendimento attraverso la creatività e la fantasia, e si concretizza in ambienti capaci di esprimere l'identità dei bambini e dei ragazzi. Per funzionalità ed estetica, SILOMA interpreta la necessità di studio, svago, hobby e relazione che evolvono con il passare del tempo e, grazie alla trasversalità delle proposte, offre soluzioni polifunzionali anche per le diverse stanze della casa.

Valori

Design

Le camere Young & Kids firmate SILOMA sono sistemi modulari smart che assolvono con carattere ai bisogni in continua evoluzione, dall'infanzia fino a oltre l'adolescenza. Anche le soluzioni d'arredo per le stanze di servizio quali lavanderia, stireria, antibagno, area gioco, spazio fitness, mansarda, garage si inseriscono in modo integrato negli spazi abitativi della casa.

Cultura progettuale

Idee innovative e una radicata cultura progettuale fanno di SILOMA un player competitivo, in grado di ottimizzare i processi di produzione e di rispondere con prontezza a ogni richiesta del cliente.

Sicurezza

Oltre ad estetica ed ergonomia, ingrediente dell'accurata progettazione by SILOMA è il rispetto dei requisiti di sicurezza in termini di dimensione, forma e composizione degli arredi.

Funzionalità

SILOMA produce camere che soddisfano appieno le esigenze dei bambini e dei ragazzi; con la stessa visione trasversale e multifunzionale, realizza arredi per tutte le stanze di case che assolvono a funzioni non solo domestiche – basti pensare agli spazi destinati allo smart working, all'home fitness, alle attività di gaming, agli hobby che richiedono spazi per conservare attrezzature e strumenti.

Materiali

SILOMA sceglie con cura i materiali con cui realizza gli arredi, in modo che la qualità del vivere sia garantita in tutti gli ambienti di casa, dalla camera alle stanze di servizio. In conformità alle norme europee del settore, i mobili sono classificati E1, ossia a basso contenuto di formaldeide, e le vernici utilizzate sono certificate CE.

Benessere

Nella progettazione, SILOMA tiene in grande considerazione l'età, i gusti e gli interessi dei bambini e dei ragazzi, al fine di creare spazi in cui dormire bene, studiare meglio e divertirsi in tutta serenità.

Produzione su misura

La personalizzazione dell'arredamento rende la casa speciale e realmente a misura di chi la vive. Grazie alla storica esperienza nella produzione di camere e arredi di servizio, le soluzioni sono perfette per ogni spazio. Tutte le fasi principali del ciclo produttivo si svolgono all'interno degli stabilimenti SILOMA o comunque sotto il controllo dell'azienda ed esclusivamente in Italia. Tale scelta assicura un elevato standard qualitativo del prodotto.

In armonia con la natura

La produzione avviene nel rispetto dell'ambiente, grazie all'impiego di materiali provenienti da processi di riciclo del legno. Nessun albero viene abbattuto. Per ridurre al minimo e tutelare l'ambiente, tutti gli imballaggi (polistirolo, cartone e film in PVC) sono riciclabili al 100%.

Diventa nostro partner

Vantaggi

- SILOMA affianca architetti, designer e rivenditori offrendo un concept di arredo integrato capace di rispondere in modo esclusivo, versatile e coordinato, alle esigenze più articolate della clientela.
- Grazie all'ampia **GAMMA** di finiture, i mobili modulari e multifunzione SILOMA, oltre che a ogni fascia d'età, si adattano a diversi stili e creano spazi abitativi unici.
- SILOMA mette a disposizione dei partner una lunga esperienza nel settore della produzione di mobili per bambini e di soluzioni d'arredo per le stanze di servizio.
- Per soddisfare le vendite al dettaglio in rapida crescita, SILOMA garantisce la consegna degli ordini sempre nei tempi pattuiti.

Supporto

Nei confronti dei rivenditori, SILOMA assicura un attento supporto attraverso:

- la consulenza per il layout del punto vendita
- le attività di coaching e formazione
- il programma grafico di configurazione 3D
- un calendario aggiornato di pubblicazioni sui canali social
- strumenti di comunicazione professionali quali cataloghi, listini e materiali in-store
- il vantaggio di una rinnovata identità visiva del marchio SILOMA

Se vuoi diventare nostro partner, compila il form.
Ti contatteremo al più presto.

SILOMA since 1968

SILOMA stands out for the production of rooms for children multifunction, safe and space-saving.

The brand has always combined the desire to bring emotions in children's and teenagers' bedrooms with attention to the continuous change of their needs: the bedroom thus opens up to new solutions, hosting the study/play/relax corner. The furniture proposals of Young & Kids are customizable and extremely flexible over time.

Philosophy

SILOMA conceives the room for children as the room that, more than any other, must be able to adapt to the rapid changes of those who live there. This idea of design is translated into modular furniture dedicated to rest, play, learning through creativity and imagination, and it materializes in environments capable of expressing the identity of children and young people. For functionality and aesthetics, SILOMA interprets the need for study, leisure, hobbies and relationships that evolve over time and, thanks to the versatility of its proposals, offers multifunctional solutions also for the different rooms of the house.

Values

Design

The Young & Kids bedrooms by SILOMA are smart modular systems that satisfy with character the ever-changing needs, from childhood to beyond adolescence. Also the furnishing solutions for service rooms such as laundry, ironing room, dressing room, play area, fitness space, attic, garage are integrated into the living spaces of the house.

Design culture

Innovative ideas and a deep-rooted design culture make SILOMA a competitive player, able to optimize production processes and respond promptly to every customer request.

Safety

In addition to aesthetics and ergonomics, an ingredient of the careful design by SILOMA is compliance with safety requirements in terms of size, shape and composition of furniture.

Functionality

SILOMA produces bedrooms that fully meet the needs of children and young people; with the same transversal and multifunctional vision, it creates furniture for suits the rooms of houses that perform functions not only domestic – just think of the spaces intended for smart working, home fitness, gaming activities, hobbies that require space to store equipment and tools.

Materials

SILOMA carefully chooses the materials with which it makes its furniture, so that the quality of life is guaranteed in all environments of the house, from the bedroom to the service rooms. In accordance with European standards, the furniture is classified E1, which means low formaldehyde content, and the paints used are CE certified.

Wellness

In the design, SILOMA takes great account of the age, tastes and interests of children and teenagers, in order to create spaces where they can sleep well, study better and have fun in all serenity.

Customization

The customization of the furniture makes the house special and really suitable for those who live it. Thanks to the historical experience in the production of rooms and service furniture, the solutions are perfect for every space. All the main stages of the production cycle take place within SILOMA's factories or under the control of the company and exclusively in Italy. This choice ensures a high quality standard of the product.

In harmony with nature

The production takes place in respect of the environment, thanks to the use of materials from wood recycling processes. No tree is cut down. To minimise and protect the environment, all packaging (polystyrene, cardboard and PVC film) is 100% recyclable.

Become our partner

Advantages

SILOMA supports architects, designers and retailers by offering an integrated furniture concept capable of responding in an exclusive, versatile and coordinated way to the most complex needs of its customers.

Thanks to the wide range of finishes, SILOMA modular and multifunctional furniture, as well as for every age group, can be adapted to different styles and create unique living spaces.

SILOMA offers its partners a long experience in the production of children's furniture and furnishing solutions for service rooms.

In order to meet the needs of rapidly growing retail sales, SILOMA ensures that orders are always delivered on time.

Support

In relation to the dealers, SILOMA ensures a careful support through:

- advice on the layout of the store
- coaching and training activities
- the 3D graphic configuration program
- an updated calendar of publications on social channels
- professional communication tools such as catalogues, price lists and in-store materials
- the advantage of a renewed visual identity of the SILOMA brand

If you want to become our partner, fill in the form.

We will contact you as soon as possible.

SILOMA depuis 1968

SILOMA se distingue par la production de chambres pour enfants multifonctionnelles, sûres et peu encombrantes.

Depuis toujours, la marque conjugue la volonté d'apporter des émotions dans les chambres des enfants et des adolescents avec une attention à l'évolution continue de leurs besoins: la chambre s'ouvre ainsi à de nouvelles solutions, accueillant le coin étude/jeu/détente. Les propositions d'ameublement Young & Kids sont personnalisables et extrêmement flexibles dans le temps.

Philosophie

SILOMA conçoit la chambre pour enfants comme une pièce qui, plus que toute autre, doit savoir s'adapter aux changements rapides de ceux qui y vivent. Cette idée de design se traduit par des meubles modulaires dédiés au repos, au jeu, à l'apprentissage par la créativité et l'imagination, et se concrétise dans des environnements capables d'exprimer l'identité des enfants et des adolescents. Pour la fonctionnalité et l'esthétique, SILOMA interprète le besoin d'étude, de loisirs, de passe-temps et de relations qui évoluent au fil du temps et, grâce à la transversalité des propositions, offre des solutions polyvalentes même pour les différentes pièces de la maison.

Valeurs

Design

Les chambres Young & Kids signées SILOMA sont des systèmes modulaires intelligents qui répondent avec caractère aux besoins en constante évolution, de l'enfance à l'adolescence. Les solutions d'ameublement pour les salles de service telles que buanderie, repassage, vestiaire, aire de jeux, espace fitness, grenier, garage s'intègrent également aux espaces de vie de la maison.

Culture de conception

Des idées innovantes et une culture de conception enracinée font de SILOMA un acteur compétitif, capable d'optimiser les processus de production et de répondre rapidement à chaque demande du client.

Sécurité

Outre l'esthétique et l'ergonomie, le respect des exigences de sécurité en termes de taille, de forme et de composition des meubles est un ingrédient de la conception soignée by SILOMA.

Fonctionnalité

SILOMA produit des chambres qui répondent pleinement aux besoins des enfants et des adolescents; avec la même vision transversale et multifonctionnelle, Siloma réalise des meubles pour les combinaisons des pièces de maisons qui remplissent des fonctions non seulement domestiques – il suffit de penser aux espaces destinés au smart working, le home fitness, les activités de jeu, les passe-temps qui nécessitent un espace pour stocker des équipements et des outils.

Matériaux

SILOMA choisit avec soin les matériaux avec lesquels il réalise les meubles, de sorte que la qualité de vie soit garantie dans tous les environnements de la maison, de la chambre aux salles de service. Conformément aux normes européennes du secteur, les meubles sont classés E1, c'est-à-dire à faible teneur en formaldéhyde, et les peintures utilisées sont certifiées CE.

Bien-être

Dans la conception, SILOMA tient compte de l'âge, des goûts et des intérêts des enfants et des adolescents afin de créer des espaces où ils peuvent bien dormir, mieux étudier et s'amuser en toute sérénité.

Production sur mesure

La personnalisation de l'ameublement rend la maison spéciale et vraiment adaptée à ceux qui y vivent. Grâce à l'expérience historique dans la production de chambres et d'ameublement, les solutions sont parfaites pour chaque espace. Toutes les phases principales du cycle de production se déroulent dans les usines SILOMA ou sous le contrôle de l'entreprise et exclusivement en Italie. Ce choix garantit un haut niveau de qualité du produit.

En harmonie avec la nature

La production se fait dans le respect de l'environnement, grâce à l'utilisation de matériaux issus des processus de recyclage du bois. Aucun arbre n'est abattu. Pour minimiser et protéger l'environnement, tous les emballages (polystyrène, carton et film PVC) sont 100% recyclables.

Devenez notre partenaire

Avantages

SILOMA accompagne les architectes, les designers et les revendeurs en offrant un concept de mobilier intégré capable de répondre de manière exclusive, polyvalente et coordonnée aux besoins les plus complexes de la clientèle.

Grâce à la large gamme de finitions, les meubles modulaires et multifonctions SILOMA s'adaptent à toutes les tranches d'âge et aux différents styles et créent des espaces de vie uniques SILOMA met à la disposition de ses partenaires une longue expérience dans le domaine de la production de meubles pour enfants et de solutions d'ameublement pour les salles de service.

Pour répondre à la croissance rapide des ventes au détail, SILOMA garantit que les commandes sont toujours livrées dans les délais convenus.

Support

Vis-à-vis des revendeurs, SILOMA assure un soutien attentif par:

- le conseil pour le plan du point de vente
- les activités de coaching et de formation
- le programme graphique de configuration 3D
- un calendrier actualisé des publications sur les réseaux sociaux
- outils de communication professionnels tels que catalogues, listes de prix et matériaux en magasin
- l'avantage d'une identité visuelle renouvelée de la marque SILOMA

Si vous voulez devenir notre partenaire, remplissez le formulaire.

Nous vous contacterons bientôt.

Compilazione degli ordini

How to fill in the orders / *Traitement des commandes*

Gestione degli ordini

Per una più facile consultazione il listino è suddiviso in capitoli con le caratteristiche tecniche dei componenti.

Gli ordini saranno accettati esclusivamente tramite e-mail o comunque in forma scritta.

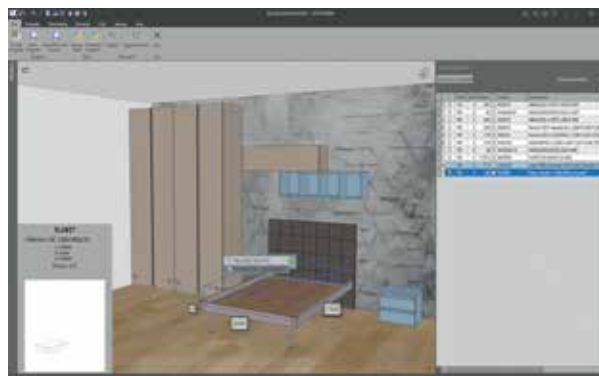

Sviluppo degli ordini

Lo sviluppo degli ordini avviene tramite un apposito programma grafico ADA DESIGNER, che invia i dati alla produzione per la realizzazione dei vostri progetti.

I controlli tecnici e le verifiche sugli elementi inseriti garantiscono un alto livello di precisione nell'evasione degli ordini.

Per l'utilizzo del nostro programma grafico destinato ai punti vendita, il nostro ufficio commerciale e la nostra rete vendita sono a vostra disposizione per i necessari chiarimenti.

Gli ordini sviluppati con ADA DESIGNER avranno la priorità nello sviluppo e nell'evasione.

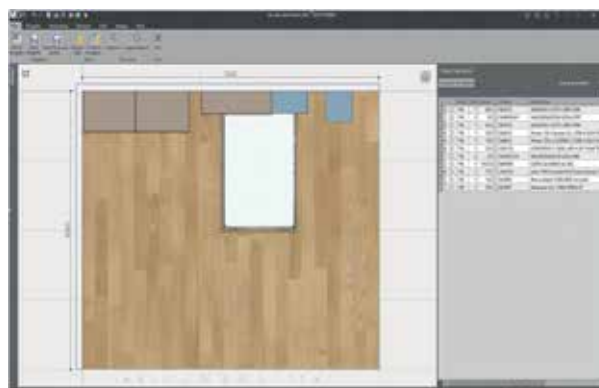

Come ordinare

Per un corretto e miglior sviluppo dell'ordine si chiede di indicare sempre:

- **colore struttura:** Bianco Alaska, Rovere Bianco, Frassino, Perla e Piuma.
- **colore ferramenta a vista:** Brunito Metal Grey, Bianco o laccato.
- **tipo maniglia:** a scelta tra maniglie con sovrapprezzo o senza (vedi da pag. 10).
- **colore maniglia:** a scelta tra le colorazioni possibili per maniglia (vedi da pag. 10).

Se gli ordini non sono esaustivi, il nostro ufficio commerciale vi contatterà per chiarimenti rallentando l'evasione dell'ordine stesso. Ricordiamo che dopo il secondo giorno dall'emissione della conferma d'ordine se non si hanno comunicazioni in merito, **l'ordine si ritiene confermato e non più modificabile.**

Schemi di assemblaggio e assistenza post-vendita

Al fine di agevolare il montaggio delle composizioni, ogni consegna è dotata di istruzioni di montaggio relative all'acquisto effettuato.

Il nostro ufficio commerciale è comunque a vostra completa disposizione per eventuali chiarimenti.

Order management

For ease of consultation, the price list is divided into chapters with the technical characteristics of the components.

Orders will be accepted only by e-mail or in writing.

Order development

The development of orders takes place through a special graphic program ADA DESIGNER, which sends data to production for the realization of your projects.

The technical checks and verifications on the inserted items ensure a high level of precision in order processing.

For the use of our point-of-sale graphics programme, our sales department and sales network are at your disposal for any clarifications you may require.

Orders developed with ADA DESIGNER will have priority in development and fulfillment.

How to order

For a correct and better development of the order, please always indicate:

- **structure color:** Bianco Alaska, Rovere Bianco, Frassino, Perla and Piuma;
- **color visible hardware:** Brunito Metal Grey, White, or lacquered;
- **handle type:** choice between handles with surcharge or without, indicated from page 10.
- **handle color:** to choose among the possible colors for handle, indicated from page 10.

If the orders are not exhaustive, our sales office will contact you for clarifications slowing down the execution of the order itself.

Assembly instructions and after-sales service

In order to facilitate the assembly of the compositions, each delivery is provided with instructions for assembly related to the purchase made.

Our sales department is however at your complete disposal for any clarifications.

Gestion des commandes

Pour une consultation plus facile, la liste est divisée en chapitres avec les caractéristiques techniques des composants.

Les commandes ne seront acceptées que par e-mail ou sous forme écrite.

Développement des commandes

Le développement des commandes se fait via un programme graphique spécifique ADA DESIGNER, qui envoie les données à la production pour la réalisation de vos projets.

Les contrôles techniques et les vérifications des éléments insérés garantissent un haut niveau de précision dans le traitement des commandes.

Pour l'utilisation de notre programme graphique destiné aux points de vente, notre bureau commercial et notre réseau de vente sont à votre disposition pour les clarifications nécessaires.

Comment commander

Pour un développement correct et optimal de la commande, nous vous demandons d'indiquer toujours:

- **couleur structure:** Bianco Alaska, Rovere Bianco, Frassino, Perla et Piuma;
- **couleur de la quincaillerie à vue:** Brunito Metal Grey, Bianco ou laqué;
- **type de poignée:** au choix entre les poignées avec surcoût ou sans, (voir page 10).
- **couleur de la poignée:** à choisir parmi les couleurs possibles pour la poignée (voir page 10).

Si les commandes ne sont pas complètes, notre service commercial vous contactera pour des clarifications en ralentissant le traitement de la commande.

Schémas d'assemblage et de service après-vente

Afin de faciliter le montage des compositions, chaque livraison est accompagnée d'instructions de montage relatives à l'achat effectué.

Notre service commercial est cependant à votre entière disposition pour toute clarification.

TIPOLOGIA ANTE SILOMA

SILOMA door types / Types de portes SILOMA

DRITTA
sp. 18 mm

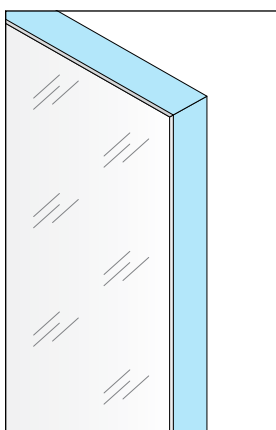

Il programma SILOMA prevede l'impiego di ante in finitura DRITTA, con bordo ABS spessore 1 mm.
Le ante in finitura DRITTA sono disponibili nei Colori di **STRUTTURA, di GAMMA, MATERICI e PREMIUM** (vedi pag. 6).

LACCATA OPACA
FINITURA SETA
sp. 18 mm

Il programma SILOMA prevede l'impiego di ante laccate opache, nei Colori laccati (vedi pag. 7).

ANTA SPECCHIO
sp. 18+4 mm

Il frontale specchio è composto da un pannello Sp. 18 mm in tutti i colori a cui viene applicato uno specchio sp. 4 mm. in finitura Neutro.
Disponibile con maniglia Linea.
Anta compresa di tirante di serie.

STRAIGHT
18mm th.

The SILOMA collection features STRAIGHT-finish doors with 1mm ABS edges.
The doors in STRAIGHT finish are available in **STRUCTURE, RANGE, TEXTURED and PREMIUM** colours (see page 6).

MATT LACQUERED
ON SILK FINISH
18mm th.

The SILOMA programme uses matt lacquered doors, in Lacquered colours (see page 7).

MIRROR DOOR
18+4mm th.

The front mirror is composed of a 18mm th. panel in all colors to which a 4mm th. mirror is applied in neutral finish.
Available with Linea handle.
The door includes the standard tie rod.

DROITE
ép. 18 mm

Le programme SILOMA prévoit l'utilisation de portes en finition DROITE, avec bord ABS d'une épaisseur de 1 mm.
Les portes en finition DROITE sont disponibles dans les couleurs **de STRUCTURE, de GAMME, TEXTUREES et PREMIUM** (voir page 6).

LAQUEE MATE
FINITION SOIE
ép. 18 mm

Le programme SILOMA prévoit l'utilisation de portes laquées mates, dans les couleurs laquées (voir page 7)

PORTE MIROIR
ép. 18+4 mm

Le miroir frontal est composé d'un panneau ép. 18 mm dans toutes les couleurs auquel on applique un miroir ép. 4 mm. en finition Neutre.
Disponibile avec poignée Linea.
La porte comprend le tirant de série.

SISTEMA COSTRUTTIVO

SILOMA è una collezione di armadi realizzata con elementi di spessore 18 e 30 mm. I frontali sono in battuta sui fianchi.

Ogni armadio è costituito dai seguenti elementi

1 – Fianchi

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 mm.

Per una perfetta realizzazione, ogni singola composizione viene personalizzata su ordine forando i fianchi per ripiano a passo 320 mm e solo dove sono previsti ante, cassetti e schiene.

I fianchi possono essere forati a passo 32 mm su richiesta del cliente.

2 – Cappello

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 mm vengono fissati ai fianchi mediante tiranti ed eccentrici.

3 – Schiena

In pannelli di particelle di legno classe E1 in MDF nobilitato melaminico sono di Sp. 5 mm, vanno in fresata sui fianchi e vengono bloccate con dei ferma schiena.

4 – Base

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 30 mm e viene fissata ai fianchi mediante tiranti ed eccentrici. Le basi vengono fornite complete di piedini regolabili.

5 – Ripiano

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 30 mm bordati ABS spessore 1 mm. I ripiani sono completi di ferramenta per il montaggio su spalle con reggipiani metallo.

Sul lato inferiore dei ripiani sono realizzati degli alloggiamenti a scomparsa per accogliere i reggipiani.

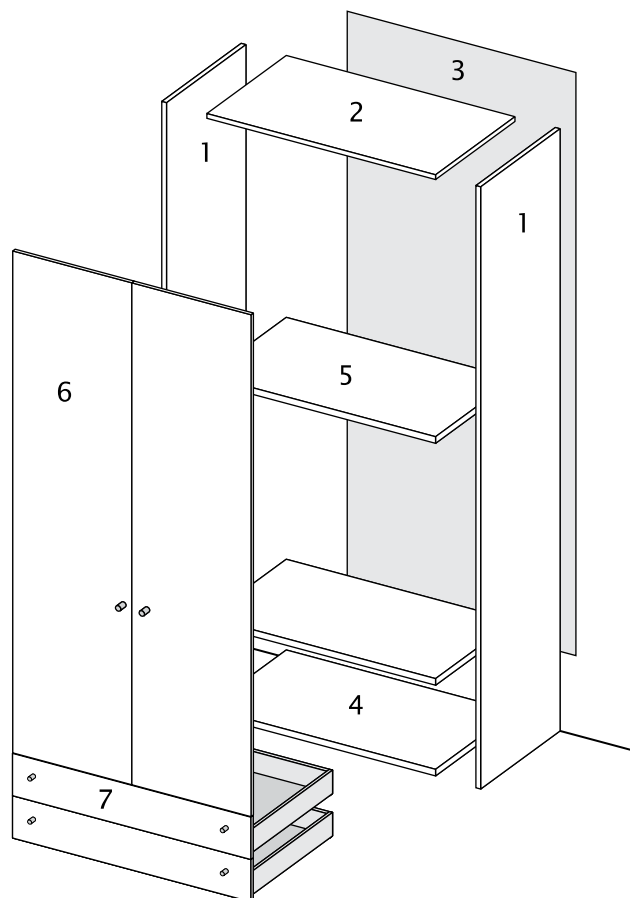

6 – Anta

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm e sono sempre con bordo dritto in ABS Sp. 1 mm.

Vengono fissate ai fianchi con cerniere a triplice regolazione.

7 – Cassetto

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm. I frontali sono sempre con bordo dritto in ABS Sp. 1 mm con raggio 0,5 mm. L'interno è in melaminico sul quale vengono montate guide QUADRO® a scomparsa ad estrazione parziale ammortizzate.

CARATTERISTICHE
TECNICHE

CONSTRUCTION SYSTEM

SILOMA is a collection of wardrobes made with elements of thickness 18 and 30 mm. The fronts are in line with the side panels.

Each cabinet consists of the following elements

1 – Side panels

In wood particle board class E1 melaminic Th. 18 mm.

For a perfect realization, each individual composition is customized to order by drilling the side panels each 320 mm and only where doors, drawers and back panels are provided.

The side panels can be drilled at a 32 mm pitch on customer's request.

2 – Top panel

In class E1 wood particle board in melamine Th. 18 mm is fixed to the side panels with eccentricities and tie rods.

3 – Back panel

In class E1 wood particle boards in melamine-coated MDF are of Th. 5 mm, fit on the milled on the side panels and are locked with a back-panel holders.

4 – Bottom panel

In wood particle board class E1 melamine Th. 30 mm is fixed to the side panels with eccentricities and tie rods.

The bottom panels are provided with adjustable feet.

5 – Shelf

In class E1 wood particle board in melamine Th. 30 mm edged ABS 1 mm thick. The shelves are complete with hardware for mounting on metal brackets.

On the lower side of the shelves there are retractable spaces for the supports.

6 – Door

In class E1 wood particle board in melamine Th. 18 mm and always with straight edge in ABS Th. 1 mm.

They are fixed to the side panels with triple-adjustable hinges.

7 – Drawer

In class E1 wood particle board in melamine Th. 18 mm. The fronts are always with straight edge in ABS Th. 1 mm with radius 0.5 mm. The interior is made of melamine on which are mounted retractable QUADRO® guides with damped partial extraction.

SYSTÈME DE CONSTRUCTION

SILOMA est une collection d'armoires réalisée avec des éléments de 18 et 30 mm d'épaisseur. Les façades sont serrées contre les côtés.

Chaque armoire est composée des éléments suivants

1 – Côtés

En panneaux de bois particules classe E1 mélaminés de ép. 18 mm.

Pour une réalisation parfaite, chaque composition est personnalisée sur commande en perçant les côtés pour étagère à pas de 320 mm et uniquement là où des portes, des tiroirs et des dossiers sont prévus.

Les côtés peuvent être percés à pas de 32 mm sur demande du client avec supplément.

2 – Couverture

En panneaux de bois particules classe E1 mélaminés de ép. 18 mm qui sont fixés aux côtés par des tirants et excentriques.

3 – Dos

En MDF classe E1 mélaminé, ils sont de ép. 5 mm, insérés dans le fraisage des côtés et bloqués avec des attaches.

4 – Base

En panneaux de bois particules classe E1 mélaminés de ép. 30 mm et fixées aux côtés par des tirants et des excentriques.

Les bases sont équipées de pieds réglables.

5 – Étagère

En panneaux de bois particules classe E1 mélaminés ép. 30 mm bordés ABS épaisseur 1 mm. Les étagères sont équipées de quincaillerie pour le montage sur des panneaux avec des supports en métal.

La face inférieure des étagères présente des logements encastrés pour accueillir les supports.

6 – Porte

En panneaux de bois particules classe E1 mélaminés ép. 18 mm et toujours avec bord droit en ABS Sp. 1 mm. Les portes sont fixées aux cotés avec des charnières à triple réglage.

7 – Tiroir

En panneaux de bois particules classe E1 mélaminés ép. 18 mm. Les façades sont toujours avec bord droit en ABS ép. 1 mm avec rayon de 0,5 mm. L'intérieur est en mélamine.

Les glissières QUADRO® sont cachées, à sortie partielle et avec amortisseur.

Sistemi di apertura/chiusura

Sono previsti 2 diversi sistemi di apertura:

- battente
- scorrevole

L'anta battente si riconosce in destra (DX) o sinistra (SX) secondo la posizione della cerniera.

Per l'anta battente le cerniere sono dotate di molla di richiamo per favorire la chiusura.

Su richiesta si possono montare cerniere ammortizzate con relativa maggiorazione di prezzo.

Ferramenta

Le cerniere sono ad aggancio rapido regolabili in altezza, larghezza e profondità con angolo di apertura a 110°. Tutti i collegamenti dei vari elementi sono realizzati mediante elementi metallici che permettono innumerevoli montaggi e smontaggi del mobile senza che la struttura in legno venga danneggiata.

Dotazione interna di serie

- 1 ripiano strutturale Sp. 30 mm per H. 2253 – 2413 – 2573 – 2893
- 1 tubo appendiabiti per H. 1293 – 1613 – 1933 – 2253 – 2893
- 2 tubi appendiabiti per H. 2413 – 2573

Opening/closing systems

2 different door types available:

- hinged door
- sliding door

Hinged doors can be right (RH) or left (LH) according to the position of the hinge.

For the hinged door, the hinges are equipped with a spring to facilitate closing.

On request it is possible to mount hinges with soft-closing mechanism with surcharge.

Ironware

The hinges are quick-release adjustable in height, width and depth, with an opening angle of 110°.

The units of Siloma collection are joined together by means of metal brackets so they can be disassembled and reassembled many times without damaging the wooden structure.

Standard internal fittings

- 1 30mm thick structural shelf for H. 2253 – 2413 – 2573 – 2893
- 1 clothes hanging rail for H. 1293 – 1613 – 1933 – 2253 – 2893
- 2 clothes hanging rails for H. 2413 – 2573

Correspondence with the sample

Correspondence with the samples may not be exact, as there might be slight differences with respect to colours, materials and dimensions, also caused by environmental causes (humidity, light, etc).

It cannot be guaranteed that units bought at subsequent dates match exactly with specific reference to colours and/or covers.

Assembly

Additional space is needed for assembly compared to the total size of the composition.

Conformità al campione

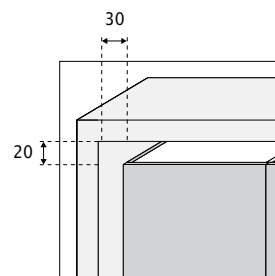

La conformità al campione non deve intendersi in senso tassativo dato che sussistono delle tolleranze dovute a variazioni di prodotto (colori, materiali, misure) o causate da fattori ambientali (luce, umidità, ecc.).

In caso di completamento dell'ordine in tempi successivi non si garantisce la perfetta eguaglianza di colori e/o rivestimenti tra la composizione originaria e gli elementi aggiuntivi.

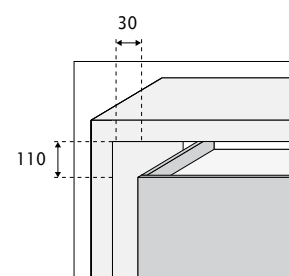

Montaggio

Per il montaggio è necessario un ulteriore spazio rispetto alle dimensioni totali della composizione.

Armadi battenti
Hinged door wardrobes
Armoires battantes

Armadi scorrevoli
Sliding door wardrobes
Armoires coulissantes

Systèmes d'ouverture/fermeture

Deux systèmes d'ouverture différents sont prévus:

- battant
- coulissant

La porte battante se reconnaît en droite (DRT) ou en gauche (GCH) selon la position de la charnière.

Pour la porte battante, les charnières sont équipées d'un ressort de rappel pour faciliter la fermeture.

Sur demande, des charnières amorties peuvent être montées avec une majoration de prix.

Quincaillerie

Les charnières sont réglables en hauteur, largeur et profondeur avec un angle d'ouverture de 110°. Toutes les connexions des différents éléments sont réalisées par des éléments métalliques qui permettent d'innombrables montages et démontages du meuble sans que la structure ne soit endommagée.

Équipement interne standard

- 1 étagère structurale ép. 30 mm pour H. 2253 – 2413 – 2573 – 2893
- 1 tringle de penderie pour H. 1293 – 1613 – 1933 – 2253 – 2893
- 2 tringles de penderie pour H. 2413 – 2573

Conformité à l'échantillon

La conformité à l'échantillon ne doit pas être entendue dans un sens strict vu que des tolérances existent, dues à des variations de produit (couleurs, matériaux, dimensions) ou causées par des facteurs environnementaux (lumière, humidité, etc.). En cas d'un supplément de la commande dans un deuxième moment, l'égalité parfaite des couleurs et/ou revêtements entre la composition originale et les éléments supplémentaires n'est pas garantie.

Pose

La pose nécessite un espace supplémentaire par rapport à la taille totale de la composition.

PONTE ANTE SCORREVOLI

OVERHEAD UNIT WITH SLIDING DOORS / ÉLÉMENTS À PONT PORTES COULISSANTES

Le ante del ponte scorrevole sono sempre con bordo dritto (bordato 4 lati con bordo ABS spessore 1 mm).

Il ponte è comprensivo di divisori Sp. 18 mm fisso e 2 tubi appendiabiti.

Sulle ante scorrevoli non sono ammesse le maniglie tipo: "A1", "D2", "X1", "H2", "RING", "HOLE" e "STILO" ne l'orientamento orizzontale per tutte le maniglie.

The sliding doors are always with a straight edge (4 sides edged with 1 mm thick ABS edge).

The overhead unit is equipped with dividers Th. 18 mm fixed and 2 hanging rods.

Sliding doors do not allow handles of type "A1", "D2", "X1", "H2", "RING", "HOLE" and "STILO" neither horizontal orientation for all handles.

Les portes coulissantes des éléments à pont sont toujours avec bord droit (bordées 4 côtés avec bord ABS ép. 1 mm).

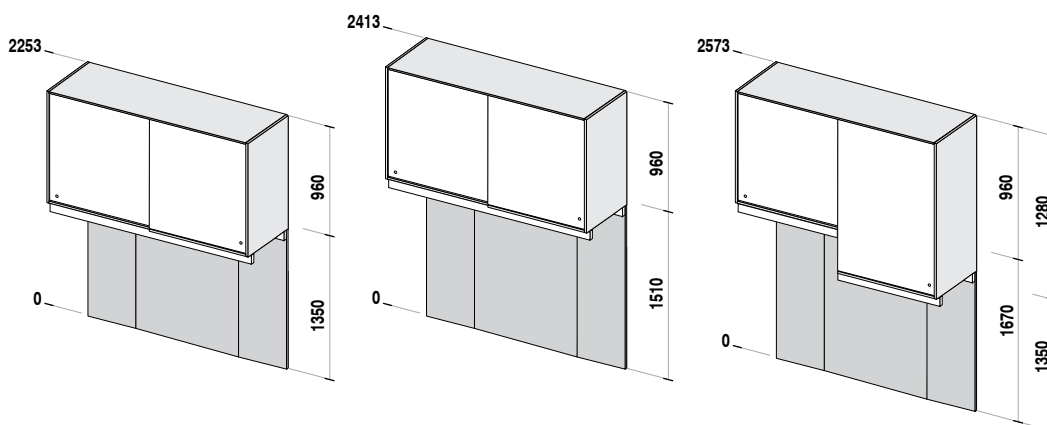

L'élément à pont comprend des cloisons ép. 18 mm fixes et 2 tringles de penderie.

Les poignées de type "A1", "D2", "X1", "H2", "RING", "HOLE" et "STILO" ne sont pas utilisables pour les portes coulissantes.

La position horizontale n'est pas prévue pour toutes les poignées.

PONTE CON FIANCO METALLICO A “C”

OVERHEAD UNIT WITH C-SHAPED METAL SIDE / ÉLÉMENTS À PONT AVEC CÔTE METALLIQUE “C”

Il fianco metallico a “C” è composto da un profilo metallico Sp. 30 mm dotato di piedini regolabili, e di un fianco in melaminico Sp. 30 mm in sovrapposizione.

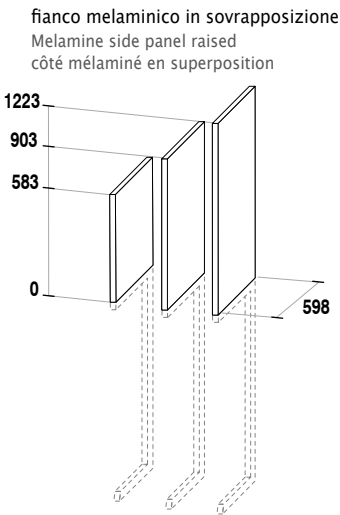

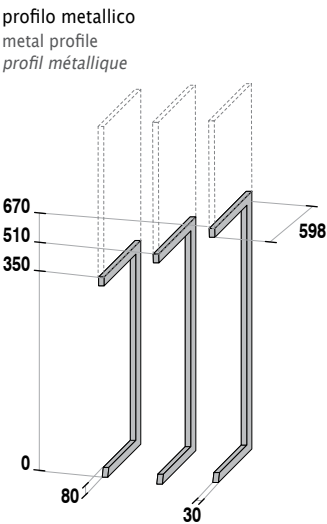

ATTENZIONE! Il fianco metallico a “C” deve essere sempre fissato a muro tramite l'apposito tassello e fissato in basso ai pannelli sottoponte.

I fianchi metallici si distinguono in finali e intermedi.
Il fianco metallico a “C” finale va posto all'estremità destra o sinistra di un ponte.
Al fianco metallico a “C” intermedio è possibile agganciare due barre ponte, una a destra e una a sinistra, questo permette di creare un vano sottoponte unico, garantendo la massima tenuta delle barre.

Sul fianco metallico a “C” non sono previsti fuori misura.

Il fianco metallico a “C” è disponibile di serie nelle finiture **BIANCO** e **BRUNITO** oppure con una maggiorazione di prezzo nei colori **LACCATI**.

Altezze e Profondità
Heights and Depths / Hauteurs et Profondeurs

CARATTERISTICHE
TECNICHE

The C-shaped metal side panel consists of one metal profile Th.30 mm with adjustable feet and one melamine side panel Th.30 mm above.

ATTENTION! The C-shaped metal side must always be fixed to the wall using the appropriate screws and secured to the panels below the overhead unit.

Metal side panels are available in the “final” and “intermediate” versions.
The final C-shaped metal side panel must be positioned on the right or left end side of the overhead unit.
To the C-shaped metal side panel is possible to fix two metal bars, one on each side, this creates a single compartment below the overhead unit, while guaranteeing the load-bearing capacity of the bars.

On the metal C-shaped side panel customizations are not possible.

The metal C-shaped side panel is available for standard in the finishes BIANCO and BRUNITO or with a surcharge for LACQUERING finishes.

Le côté métallique “C” est composé d'un profil métallique ép. 30 mm équipé de pieds réglables, et d'un panneau en mélamine ép. 30 mm en superposition.

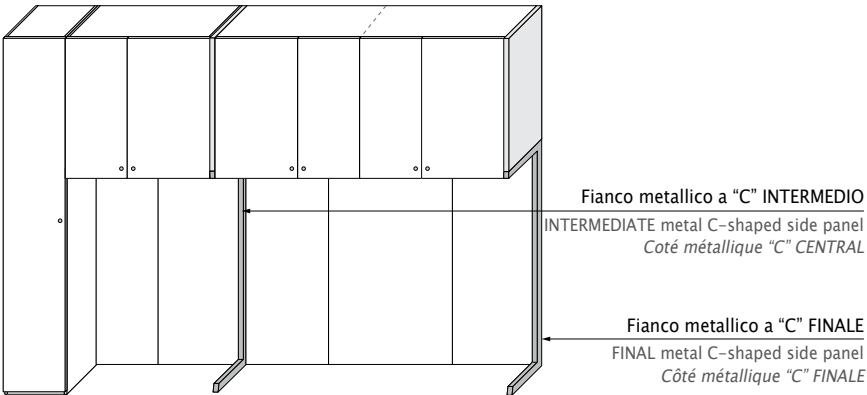

ATTENTION! Le côté métallique “C” doit toujours être fixé au mur à l'aide de la goupille appropriée et fixé en bas aux panneaux sous-pont.

Les côtés métalliques se distinguent en finale et intermédiaire.
Le côté métallique “C” final doit être placé à l'extrémité droite ou gauche d'un élément à pont.
Sur le côté métallique “C” intermédiaire, il est possible d'accrocher deux barres de pont, une à droite et une à gauche, ce qui permet de créer un compartiment unique sous-pont, en garantissant la tenue maximale des barres.

Pour le côté métallique “C” le “sur-mesure” n'est pas prévu.

Le côté métallique “C” est disponible standard dans les finitions BIANCO et BRUNITO ou avec une supplément de prix dans les couleurs LAQUÉES.

Esempio componibilità
Modularity exemple / Exemple de modularité

Ponti autoportanti

Self-supporting / Éléments pont autoportant

I singoli elementi ponte sono sostenuti da due attaccaglie, per una portata di 50 kg ad elemento ponte.

Gli elementi sono agganciati a una barra reggipensile fissata con dei tasselli al muro.

Le caratteristiche e il numero dei tasselli per la barra, dovranno essere valutati da personale esperto nel montaggio, in relazione al tipo di muro. Sono consigliati i tasselli chimici che garantiscono una miglior tenuta, purchè rispettino le modalità d'installazione.

Per il montaggio è necessario uno spazio in altezza di 30 mm minimo.

ATTENZIONE! Verificare sempre le condizioni e la tenuta del muro.

Non è possibile agganciare ponti su pareti in cartongesso o muri non adatti a sorreggere pesi.

Nei materiali non compatti si raccomanda di eseguire la foratura con sistemi a sola rotazione (trapano senza percussione) e di pulire accuratamente i fori prima dell'installazione.

ATTENZIONE! Si consiglia SEMPRE l'utilizzo di pannelli a muro o di librerie sui quali poggiare gli elementi ponte.

Si prega di evidenziare all'utente finale le caratteristiche del prodotto, la portata e l'utilizzo dei singoli elementi.

Si declina ogni responsabilità per danni a cose o persone derivanti dalla mancata osservazione delle istruzioni.

Each overhead unit is supported by two brackets, each with a load capacity of 50 kg.

The elements are attached to a bracket fixed with dowels to the wall.

The characteristics and the number of pieces for the bar should be evaluated by expert staff in the assembly, in relation to the type of wall. We recommend the chemical anchors that guarantee a better seal, as long as they respect the installation procedures.

For mounting it is required a minimum height of 30 mm.

ATTENTION! Always check the condition and the resistance of the wall.

It is not possible to attach overhead units to plasterboard walls or walls which are not suitable for supporting weights.

In non-compact materials it is recommended to drill with single rotation systems (drilling without percussion) and clean the holes thoroughly before installation.

ATTENTION! The use of wall panels or bookcases as support for the bridge elements is ALWAYS recommended.

Please highlight to the end user the product features, capacity and use of single elements.

No liability is accepted for damage to property or persons resulting from failure to observe the instructions.

Les éléments de pont individuels sont supportés par deux attaches, pour une charge de 50 kg par élément de pont.

Les éléments sont fixés à une barre de fixation fixée avec des chevilles au mur.

Les caractéristiques et le nombre de chevilles pour la barre devront être évalués par poseurs professionnels, en relation avec le type de mur. Les chevilles chimiques qui garantissent une meilleure tenue sont recommandées, à condition de respecter les modalités d'installation.

Pour la pose, un espace en hauteur de 30 mm minimum est nécessaire.

ATTENTION! Toujours vérifier l'état et la tenue du mur.

Il n'est pas possible d'accrocher des ponts sur des parois en plâtre ou des murs qui ne sont pas adaptés pour supporter des poids.

Au cas de matériaux non compacts, il est recommandé de forer avec des systèmes à rotation seule (perceuse sans percussion) et de nettoyer soigneusement les trous avant l'installation.

ATTENTION! L'utilisation de panneaux muraux ou de bibliothèques comme support pour les éléments du pont est **TOUJOURS** recommandée.

Veuillez mettre en évidence pour l'utilisateur final les caractéristiques du produit, la portée et l'utilisation des éléments individuels.

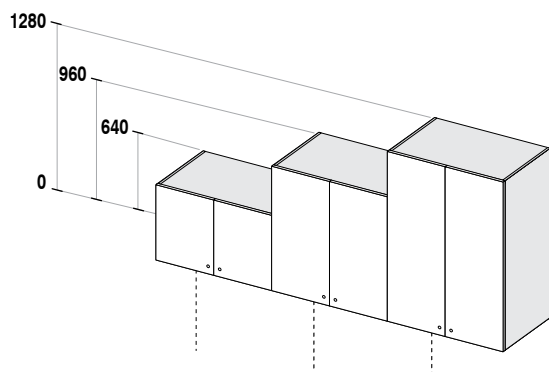

Nous déclinons toute responsabilité pour les dommages causés à des personnes ou des biens résultant du non-respect des instructions.

ATTENZIONE!

La portata è relativa alla ferramenta agganciata all'elemento ponte.

La responsabilità del montaggio e la scelta di viti e tasselli di fissaggio, verificata in funzione del tipo di parete, è a carico della ditta che esegue montaggi.

L'azienda non è da ritenersi responsabile di eventuali danni causati da una errata scelta di viti e tasselli in relazione allo specifico tipo di muro.

Certificato CATAS secondo le norme: TUV e LGA

ATTENTION!

The capacity is relative to the hardware attached to the overhead unit.

The responsibility for assembly and the choice of screws and fixing dowels, checked according to the type of wall, is borne by the company that carries out the assembly.

The company is not responsible for any damage caused by a wrong choice of screws and dowels in relation to the specific type of wall.

CATAS Certificate according to the standards: TUV and LGA

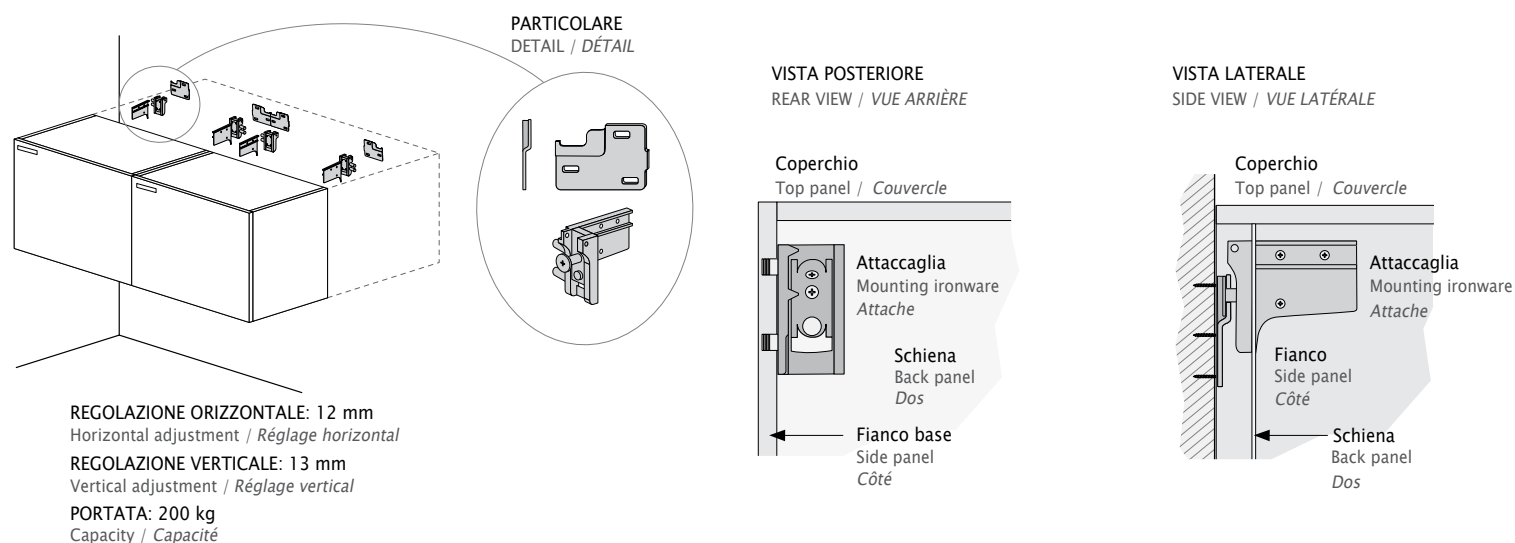

ATTENTION!

La capacité de charge est en relation à la quincaillerie utilisée pour l'élément pont.

La responsabilité de la pose et le choix des vis et chevilles de fixation, vérifiés en fonction du type de mur, est à la charge de l'entreprise qui s'occupe de la pose.

Nous déclinons toute responsabilité pour les dommages causés par un mauvais choix de vis et chevilles en relation avec le type spécifique de mur.

SISTEMA COSTRUTTIVO

La collezione SILOMA è arricchita da un sistema di mobili a contenitore di Sp. 18 mm.

Le ante lavorano sempre in battuta.

Una varietà di soluzioni di arredo che rende SILOMA un programma estremamente versatile per componibilità e scelte cromatiche.

1 - Fianchi

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 mm. Per una perfetta realizzazione, ogni singola composizione SILOMA viene personalizzata su ordine forando i fianchi solo dove sono previsti ripiani, ante, cassetti e schiene.

2 - Cappello

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 mm.

3 - Schiena

In pannelli di particelle di legno classe E1 in MDF nobilitato melaminico sono di Sp. 5 mm. Vanno in fresata su fianchi, base e coperchio.

4 - Base

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 mm.

5 - Ripiano

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm bordati ABS Sp. 1 mm. I ripiani sono completi di ferramenta per il montaggio su spalle con reggi ripiani metallo. Sul lato inferiore dei ripiani sono realizzati degli alloggiamenti a scomparsa per accogliere i reggipiani.

6 - Anta

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm e sono sempre con bordo dritto in ABS Sp. 1 mm.

Vengono fissate ai fianchi con cerniere a triplice regolazione.

7 - Anta vetro

Le ante vetro sono realizzate con telaio alluminio Sp. 21 mm con maniglia integrata e con vetri temperati per motivi di sicurezza. In caso di rottura si frantumano in pezzi non taglienti. Per tale motivo non si possono fornire ante vetro tagliate a misura.

Le ante vetro sono fornite con telaio alluminio Bianco e vetro trasparente o con telaio alluminio Brunito e vetro Fumè.

8 - Cassetto

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm. I frontali sono sempre con bordo dritto in ABS Sp. 1 mm con raggio 0,5 mm.

L'interno è in melaminico sul quale vengono montate guide QUADRO® a scomparsa ad estrazione parziale ammortizzata.

9 - Top

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 18 o 30 mm.

Nei comodini, a differenza delle basi, il top Sp. 18 o 30 mm ha la funzione di coperchio.

Base con coperchio

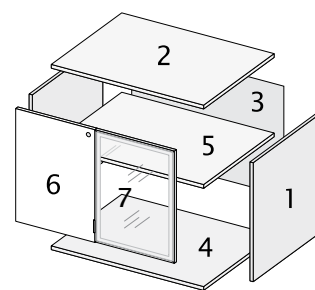

Le basi vanno sempre completate con il top di riferimento in sp. 18 mm o 30 mm

Base unit with top panel

Base units to be finished with a 18/30 mm th. top

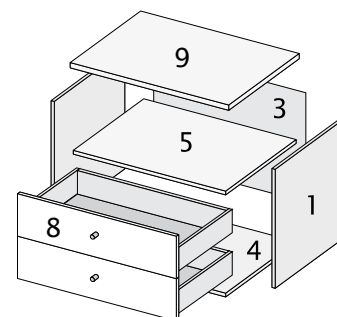

Élément bas avec couvercle

Les bases doivent être complétées par un top de ép. 18 mm ou 30 mm

Comodino

Bedside table / Chevet

Sistemi di apertura/chiusura

L'anta battente si riconosce in destra (dx) o sinistra (sx) secondo la posizione della cerniera.

Per l'anta battente le cerniere sono dotate di molla di richiamo per favorire la chiusura.

Su richiesta si possono montare cerniere ammortizzate con relativa maggiorazione di prezzo.

Ferramenta

Le cerniere sono ad aggancio rapido regolabili in altezza, larghezza e profondità con angolo di apertura a 110°.

Conformità al campione

La conformità al campione non deve intendersi in senso tassativo dato che sussistono delle tolleranze dovute a variazioni di prodotto (colori, materiali, misure) o causate da fattori ambientali (luce, umidità, ecc.).

In caso di completamento dell'ordine in tempi successivi non si garantisce la perfetta eguaglianza di colori e/o rivestimenti tra la composizione originaria e gli elementi aggiuntivi.

Montaggio

Tutte le basi e comodini vengono consegnate già montati, fatta eccezione per gli angoli.

Le basi hanno piedini regolabili, di serie, in altezza fino a 10 mm.

I comodini sono senza piedini.

Basi e comodini

Base units and bedside tables / *Éléments bas et chevets*

CONSTRUCTION SYSTEM

The SILOMA collection is enriched by a system of furniture cabinets Th. 18 mm. The doors always stop on side panels and shelves. A variety of furnishing solutions that makes SILOMA an extremely versatile program for composability and color choices.

- 1 – Side panels
In wood particle board class E1 melaminic Th. 18 mm, each individual SILOMA composition is customized to order by drilling the side panels only where shelves, doors, drawers and back panels are provided.
- 2 – Top panel
In class E1 wood particle boards in melamine Th. 18 mm.
- 3 – Back panel
In class E1 wood particle boards in melamine-coated MDF are of Th. 5 mm, fit on the milled on the side panels, bottom panel and top panel.
- 4 – Bottom panel
In wood particle board class E1 melamine Th. 30 mm are fixed to the side panels with eccentrics and tie rods.
- 5 – Shelf
In class E1 wood particle boards in melamine Th. 18 mm with edges ABS 1 mm thick. All shelves have metal brackets for fixing them to the side panels. The bottom side of the shelves features concealed slots for the shelf brackets.
- 6 – Door
In class E1 wood particle boards in melamine Th. 18 mm always with 1 mm thick straight ABS edges.
The doors are mounted to the side panels with 3-way adjustable hinges.
- 7 – Glass door
The glass doors are made with aluminium frame th. 21 mm with integrated handle and tempered glass for safety reasons. In case of break they are crushed into non-sharp pieces. For this reason, custom sized glass doors cannot be supplied.
The glass doors are supplied with white aluminium frame and transparent glass or with Brunito aluminium frame and smoked glass.
- 8 – Drawer
In class E1 wood particle board in melamine Th. 18 mm. The fronts are always with straight edge in ABS Th. 1 mm with radius 0.5 mm. The interior is made of melamine on which are mounted retractable QUADRO® guides with damped partial extraction.
- 9 – Top
In class E1 wood particle boards in melamine Th. 18 or 30 mm are fixed to the side panels.
In the bedside tables, unlike the bases, the top Th. 18 or 30 mm has the function of a top panel.

Opening/closing systems

The hinged door can be recognized in right (RH) or left (LH) depending on the position of the hinge.
For the hinged door, the hinges are equipped with a spring to facilitate closing.
On request, hinges can be fitted with a damper and their price increased accordingly.

Ironware

Hinges are of quick-fit type and are adjustable in height, width and depth, with an opening angle of 110°.

Correspondence with the sample

Correspondence with the samples may not be exact, as there might be slight differences with respect to colours, materials and dimensions, also caused by environmental causes (humidity, light, etc).
It cannot be guaranteed that units bought at subsequent dates match exactly with specific reference to colours and/or covers.

Assembly

All base units and bedside tables, except corner ones, are delivered pre-assembled.
Feet of base units are adjustable in height up to 10 mm.
The bedside tables are without feet.

SYSTÈME DE CONSTRUCTION

La collection SILOMA prévoit un système de meubles ép. 18 mm. Les portes travaillent toujours en battant. Une variété de solutions d'ameublement qui fait de SILOMA un programme extrêmement polyvalent pour la modularité et les choix chromatiques.

- 1 – Côtés
En panneaux de bois particules classe E1 mélaminés de ép. 18 mm. Pour une réalisation parfaite, chaque composition est personnalisée sur commande en perçant les côtés pour étagère et uniquement là où des portes, des tiroirs et des dossiers sont prévus.
- 2 – Couvercle
En panneaux de bois particules classe E1 mélaminés de ép. 18 mm.
- 3 – Dos
En MDF classe E1 mélaminé, ils sont de ép. 5 mm. insérés dans le fraisage des côtés, base et couvercle.
- 4 – Base
En panneaux de bois particules classe E1 mélaminés de ép. 18 mm.
- 5 – Étagère
En panneaux de bois particules classe E1 mélaminés ép. 30 mm bordés ABS épaisseur 1 mm. Les étagères sont équipées de quincaillerie pour le montage sur des panneaux avec des supports en métal.
La face inférieure des étagères présente des logements encastrés pour accueillir les supports.
- 6 – Porte
En panneaux de bois particules classe E1 mélaminés ép. 18 mm et toujours avec bord droit en ABS Sp. 1 mm. Les portes sont fixées aux cotés avec des charnières à triple réglage.
- 7 – Porte en verre
Les portes en verre sont réalisées avec cadre en aluminium ép. 21 mm avec poignée intégrée et avec du verre trempé pour des raisons de sécurité. En cas de rupture, ils se brisent en morceaux non tranchants. Pour cette raison, nous ne pouvons pas fournir des portes en verre sur mesure.
Les portes vitrées sont fournies avec cadre en aluminium Bianco et verre transparent ou avec cadre en aluminium Brunito et verre fumé.
- 8 – Tiroir
En panneaux de bois particules classe E1 mélaminés ép. 18 mm. Les façades sont toujours avec bord droit en ABS ép. 1 mm avec rayon de 0,5 mm. L'intérieur est en melamine.
Les glissières QUADRO® sont cachée, à sortie partielle et avec amortisseur.
- 9 – Top
En panneaux de bois particules classe E1 mélaminés ép. 18 ou 30 mm.
Pour les tables de chevet, contrairement aux éléments bas, le plan ép. 18 ou 30 mm a la fonction de couvercle.

Systèmes d'ouverture/fermeture

La porte battante se reconnaît en droite (DRT) ou en gauche (GCH) selon la position de la charnière.
Pour la porte battante, les charnières sont équipées d'un ressort de rappel pour faciliter la fermeture.
Sur demande, des charnières amorties peuvent être montées avec une majoration de prix.

Quincaillerie

Les charnières sont réglables en hauteur, largeur et profondeur avec un angle d'ouverture de 110°.

Conformité à l'échantillon

La conformité à l'échantillon ne doit pas être entendu dans un sens strict vu que des tolérances existent, dues à des variations de produit (couleurs, matériaux, dimensions) ou causées par des facteurs environnementaux (lumière, humidité, etc.).
En cas d'un supplément de la commande dans un deuxième moment, l'égalité parfaite des couleurs et/ou revêtements entre la composition originale et les éléments supplémentaires n'est pas garantie.

Pose

Toutes les éléments bas et tables de chevet sont livrées déjà montées, à l'exception des éléments d'angle.
Les pieds des éléments bas sont réglables en hauteur jusqu'à 10 mm.
Les chevets sont sauf pieds.

SISTEMA COSTRUTTIVO

Nelle librerie a contenitore Sp. 18 mm, le ante lavorano sempre in battuta.

Una varietà di soluzioni di arredo che rende il programma estremamente versatile per componibilità e scelte cromatiche.

1 - Fianchi

In pannelli di particelle di legno classe E1 nobilitati melaminici di spessore 18 mm. Per una perfetta realizzazione, ogni singola composizione SILOMA viene personalizzata su ordine **forando i fianchi solo dove sono previsti ripiani**, ante, cassetti e schiene.

I fianchi possono essere forati a passo 32 mm su richiesta del cliente con maggiorazione.

2 - Cappello

In pannelli di particelle di legno classe E1 nobilitati melaminici di spessore 18 mm, vengono fissati ai fianchi mediante tiranti ed eccentrici.

3 - Schiena

In pannelli di particelle di legno classe E1 in MDF nobilitato melaminico sono di spessore 5 mm, vanno in fresata sui fianchi, base e coperchio e vengono bloccate con dei ferma schiena.

4 - Base

In pannelli di particelle di legno classe E1 nobilitati melaminici di spessore 30 mm, viene fissata ai fianchi mediante tiranti ed eccentrici. Dotata di piedini regolabili.

5 - Ripiano

In pannelli di particelle di legno classe E1 nobilitati melaminici spessore 18 mm, bordati ABS spessore 1 mm.

I ripiani sono completi di ferramenta per il montaggio con reggi ripiani metallo. Sul lato inferiore dei ripiani sono realizzati degli alloggiamenti a scomparsa per accogliere i reggipiani.

6 - Anta

In pannelli di particelle di legno classe E1 nobilitati melaminici spessore 18 mm e sono disponibili con bordo dritto in ABS spessore 1 mm. Vengono fissate ai fianchi con cerniere a triplice regolazione.

7 - Anta vetro

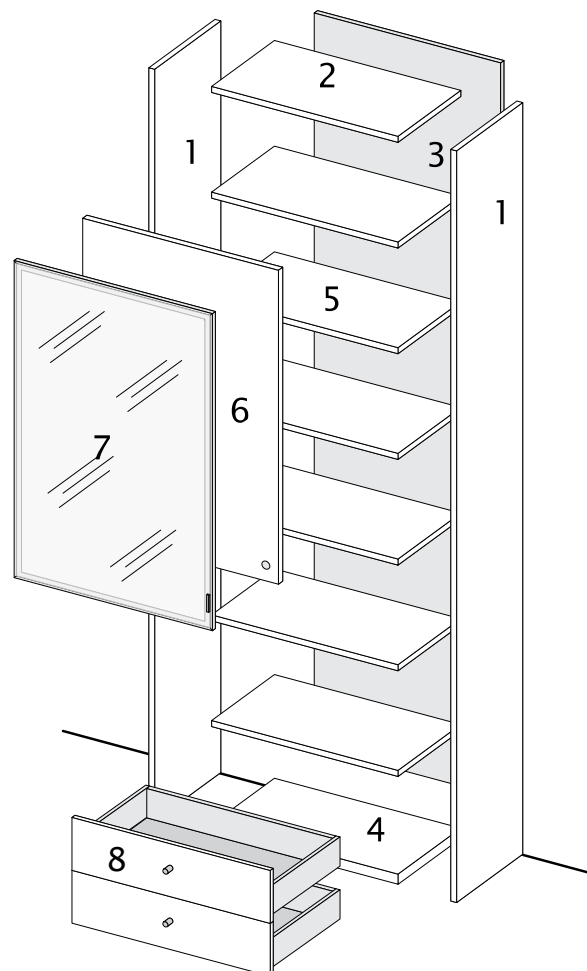

Le ante vetro sono realizzate con telaio alluminio Sp. 21 mm con maniglia integrata e con vetri temperati per motivi di sicurezza. In caso di rottura si frantumano in pezzi non taglienti. Per tale motivo non si possono fornire ante vetro tagliate a misura.

Le ante vetro sono fornite con telaio alluminio Bianco e vetro trasparente o con telaio alluminio Brunito e vetro Fumè.

8 - Cassetto

In pannelli di particelle di legno classe E1 nobilitati melaminici spessore 18 mm. I frontali sono sempre con bordo dritto in ABS spessore 1 mm con raggio 0,5 mm.

L'interno è in melaminico sul quale vengono montate guide QUADRO® a scomparsa ad estrazione parziale ammortizzata.

Sistemi di apertura/chiusura

È previsto un solo sistema di apertura:

– battente

L'anta battente si riconosce in destra (DX) o sinistra (SX) secondo la posizione della cerniera.

Per l'anta battente le cerniere sono dotate di molla di richiamo per favorire la chiusura.

Su richiesta si possono montare cerniere ammortizzate con relativa maggiorazione di prezzo.

Ferramenta

Le cerniere sono ad aggancio rapido regolabili in altezza, larghezza e profondità con angolo di apertura a 110°. Tutti i collegamenti dei vari elementi sono realizzati mediante elementi metallici che permettono innumerevoli montaggi e smontaggi del mobile senza che la struttura in legno venga danneggiata.

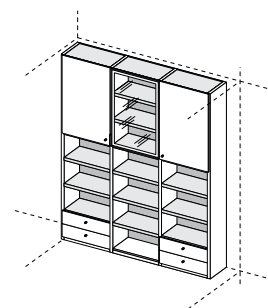

Conformità al campione

La conformità al campione non deve intendersi in senso tassativo dato che sussistono delle tolleranze dovute a variazioni di prodotto (colori, materiali, misure) o causate da fattori ambientali (luce, umidità, ecc.).

In caso di completamento dell'ordine in tempi successivi non si garantisce la perfetta eguaglianza di colori e/o rivestimenti tra la composizione originaria e gli elementi aggiuntivi.

Montaggio

Per il montaggio è necessario un ulteriore spazio minimo di 20 mm. in altezza (per angoli 60 mm) e di 30 mm in larghezza rispetto alle dimensioni totali della composizione.

CONSTRUCTION SYSTEM

In the th.18 mm bookcases, the doors are always hinged.
A variety of furniture solutions that makes the program extremely versatile for composability and colour choices.

- 1 – Side panels
In wood particle board class E1 melamine Th. 18 mm. For a perfect realization, each individual SILOMA composition is customized to order by drilling the side panels only where shelves, doors, drawers and back panels are provided.
The side panels can be drilled at a 32 mm pitch on customer's request.
- 2 – Top panel
In wood particle board class E1 melamine Th. 18 mm, they are fixed to the side panels by eccentrics and tie rods.
- 3 – Back panel
In class E1 wood particle boards in melamine-coated MDF are of Th. 5 mm, fit on the milled on the side panels, bottom panel and top panel and are locked with a back-panel holders.
- 4 – Bottom panel
In wood particle board class E1 melamine Th. 30 mm, they are fixed to the side panels with eccentrics and tie rods. Equipped with adjustable feet.
- 5 – Shelf
In class E1 wood particle boards in melamine Th. 18 mm with edges ABS 1mm thick.
The shelves are complete with hardware for mounting with metal shelf supports.
The bottom side of the shelves features concealed slots for the shelf brackets.
- 6 – Door
In class E1 wood particle boards in melamine Th. 18 mm always with 1 mm thick straight ABS edges.
The doors are mounted to the side panels with 3-way adjustable hinges.
- 7 – Glass door
The glass doors are made with aluminium frame th. 21 mm with integrated handle and tempered glass for safety reasons. In case of break they are crushed into non-sharp pieces. For this reason, custom sized glass doors cannot be supplied.
The glass doors are supplied with white aluminium frame and transparent glass or with Brunito aluminium frame and smoked glass.
- 8 – Drawer
In class E1 wood particle board in melamine Th. 18 mm. The fronts are always with straight edge in ABS Th. 1 mm with radius 0.5 mm. The interior is made of melamine on which are mounted retractable QUADRO® guides with damped partial extraction.

Opening/closing systems

- 1 door type available:
– hinged door
Hinged doors can be right (RH) or left (LH) according to the position of the hinge and have hinges fitted with a return spring for easier closing.
On request, hinges can be fitted with a soft-closing mechanism and their price increased accordingly.

Ironware

Hinges are of quick-fit type and are adjustable in height, width and depth, with an opening angle of 110°. The units collection are joined together by means of metal brackets, so they can be disassembled and reassembled many times without damaging the wooden structure.

Correspondence with the sample

Correspondence with the samples may not be exact, as there might be slight differences with respect to colours, materials and dimensions, also caused by environmental causes (humidity, light, etc).
It cannot be guaranteed that units bought at subsequent dates match exactly with specific reference to colours and/or covers.

Assembly

An additional minimum of 20 mm is required for mounting in height (for angles of 60 mm) and 30 mm in width compared to the total dimensions of the composition.

SYSTÈME DE CONSTRUCTION

Pour les bibliothèques ép. 18 mm, les portes sont toujours battantes.
Une variété de solutions d'ameublement qui rend le programme extrêmement polyvalent pour la modularité et les choix chromatiques.

- 1 – Côtés
En panneaux de bois particules classe E1 mélaminés de ép. 18 mm.
Pour une réalisation parfaite, chaque composition est personnalisée sur commande en perçant les côtés pour étagère et uniquement là où des portes, des tiroirs et des dossiers sont prévus.
Les côtés peuvent être percés à pas de 32 mm sur demande du client avec supplément.
- 2 – Couvercle
En panneaux de bois particules classe E1 mélaminés de ép. 18 mm qui sont fixés aux côtés par des tirants et excentriques.
- 3 – Dos
En MDF classe E1 mélaminé, ils sont de ép. 5 mm, insérés dans le fraisage des côtés, base et couvercle et bloqués avec des attaches.
- 4 – Base
En panneaux de bois particules classe E1 mélaminés de ép. 30 mm et fixées aux côtés par des tirants et des excentriques.
Les bases sont équipées de pieds réglables.
- 5 – Étagère
En panneaux de bois particules classe E1 mélaminés ép. 18 mm bordés ABS épaisseur 1 mm. Les étagères sont équipées de quincaillerie pour le montage sur des panneaux avec des supports en métal.
La face inférieure des étagères présente des logements encastrés pour accueillir les supports.
- 6 – Porte
En panneaux de bois particules classe E1 mélaminés ép. 18 mm et toujours avec bord droit en ABS Sp. 1 mm.
Les portes sont fixées aux cotés avec des charnières à triple réglage.
- 7 – Porte en verre
Les portes en verre sont réalisées avec du verre trempé pour des raisons de sécurité et dans une finition satinée. En cas de rupture, ils se brisent en morceaux non tranchants. Pour cette raison, nous ne pouvons pas fournir des portes en verre sur mesure.
Les portes vitrées sont fournies avec un cadre en aluminium d'ép. 21 mm avec poignée intégrée.
- 8 – Tiroir
En panneaux de bois particules classe E1 mélaminés ép. 18 mm. Les façades sont toujours avec bord droit en ABS ép. 1 mm avec rayon de 0,5 mm. L'intérieur est en mélamine.
Les glissières QUADRO® sont cachée, à sortie partielle et avec amortisseur.

Systèmes d'ouverture/fermeture

En système d'ouverture est prévu:
– battant
La porte battante se reconnaît en droite (DRT) ou en gauche (GCH) selon la position de la charnière.
Pour la porte battante, les charnières sont équipées d'un ressort de rappel pour faciliter la fermeture.
Sur demande, des charnières amorties peuvent être montées avec une majoration de prix.

Quincaillerie

Les charnières sont réglables en hauteur, largeur et profondeur avec un angle d'ouverture de 110°. Toutes les connexions des différents éléments sont réalisées par des éléments métalliques qui permettent d'innombrables montages et démontages du meuble sans que la structure ne soit endommagée.

Conformité à l'échantillon

La conformité à l'échantillon ne doit pas être entendu dans un sens strict vu que des tolérances existent, dues à des variations de produit (couleurs, matériaux, dimensions) ou causées par des facteurs environnementaux (lumière, humidité, etc.).
En cas s'un supplément de la commande dans un deuxième moment, l'égalité parfaite des couleurs et/ou revêtements entre la composition originale et les éléments supplémentaires n'est pas garantie.

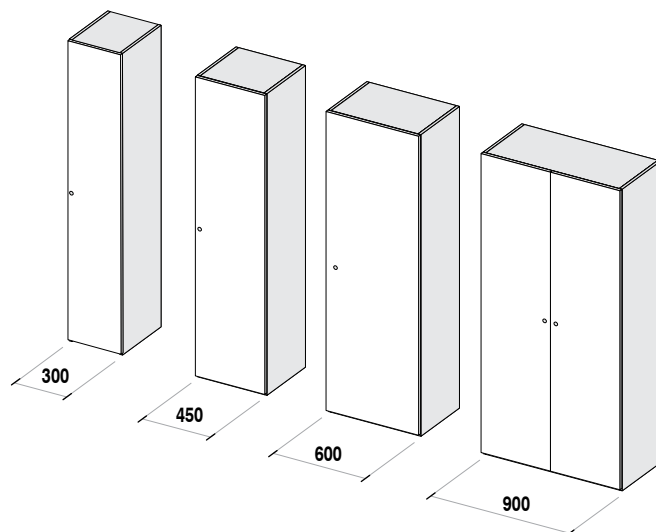

Pose

La pose nécessite un espace supplémentaire minimum de 20 mm. en hauteur (pour les angles de 60 mm) et de 30 mm de largeur par rapport aux dimensions totales de la composition.

SISTEMA COSTRUTTIVO

Nelle librerie a spalla sp. 30 mm., le ante lavorano sempre in battuta.

Una varietà di soluzioni di arredo che rende il programma estremamente versatile per componibilità e scelte cromatiche.

1 - Fianchi

In pannelli di particelle di legno classe E1 nobilitati melaminici di spessore 30 mm. Per una perfetta realizzazione, ogni singola composizione viene personalizzata su ordine **forando i fianchi solo dove sono previsti ripiani**, ante, cassetti e schiene.

I fianchi possono essere forati a passo 32 mm su richiesta del cliente (con maggiorazione) e dotati di piedini regolabili.

2 - Cappello

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 30 mm. e vengono fissati ai fianchi.

3 - Schiena

In pannelli di particelle di legno classe E1 nobilitati melaminici sono di Sp. 18 mm. e viene fissata ai fianchi mediante tiranti ed eccentrici.

4 - Base

In pannelli di particelle di legno classe E1 nobilitati melaminici di Sp. 30 mm, viene fissata ai fianchi mediante tiranti ed eccentrici.

5 - Ripiano

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 30 mm, bordati ABS Sp. 1 mm.

I ripiani sono completi di ferramenta per il montaggio su spalle con reggi ripiani metallo. Sul lato inferiore dei ripiani sono realizzati degli alloggiamenti a scomparsa per accogliere i reggipiani.

6 - Anta

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm e sono disponibili con bordo dritto in ABS Sp. 1 mm. Vengono fissate ai fianchi con cerniere a triplice regolazione.

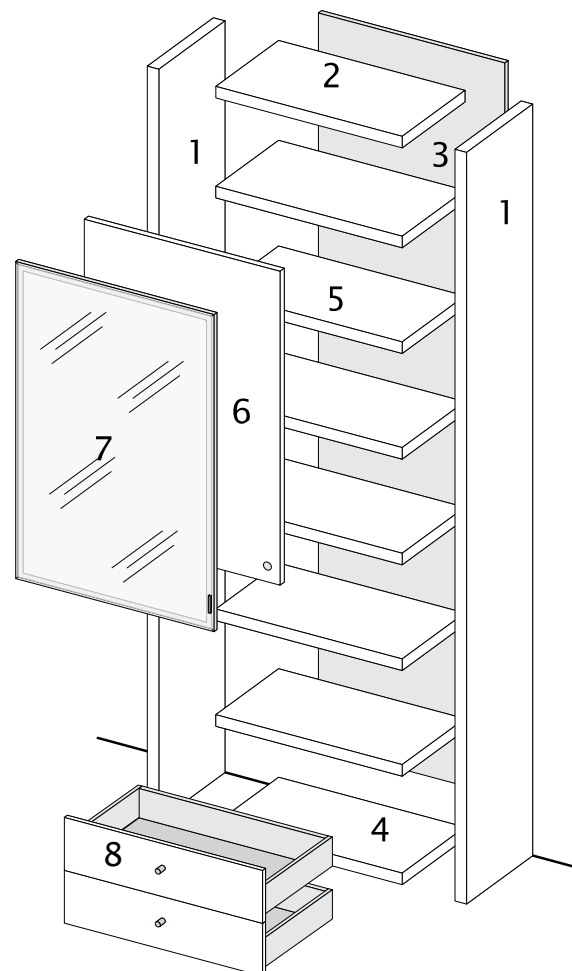

7 - Anta vetro

Le ante vetro sono realizzate con telaio alluminio Sp. 21 mm con maniglia integrata e con vetri temperati per motivi di sicurezza. In caso di rottura si frantumano in pezzi non taglienti. Per tale motivo non si possono fornire ante vetro tagliate a misura.

Le ante vetro sono fornite con telaio alluminio Bianco e vetro trasparente o con telaio alluminio Brunito e vetro Fumè.

8 - Cassetto

In pannelli di particelle di legno classe E1 nobilitati melaminici Sp. 18 mm. I frontali sono sempre con bordo dritto in ABS Sp. 1 mm con raggio 0,5 mm. L'interno è in melaminico sul quale vengono montate guide QUADRO® a scomparsa ad estrazione parziale ammortizzata.

Sistemi di apertura/chiusura

Sono previsti 3 diversi sistemi di apertura:

- battente
- vasistas (apertura verso l'alto)
- ribalta (apertura verso il basso)

L'anta battente si riconosce in destra (DX) o sinistra (SX) secondo la posizione della cerniera.

Per l'anta battente le cerniere sono dotate di molla di richiamo per favorire la chiusura.

Su richiesta si possono montare cerniere ammortizzate con relativa maggiorazione di prezzo.

Ferramenta

Le cerniere sono ad aggancio rapido regolabili in altezza, larghezza e profondità con angolo di apertura a 110°. Tutti i collegamenti dei vari elementi sono realizzati mediante elementi metallici che permettono innumerevoli montaggi e smontaggi del mobile senza che la struttura in legno venga danneggiata.

Sistema TVBlank

TVBlank system / Système TVBlank

Il Sistema TVBlank è un ponte a spalla sorretto da barra ponte, attrezzato con spazzolino passacavi per facilitare l'utilizzo di qualsiasi congegno elettronico come televisione, consolle videogiochi ecc.

Il portale TVBlank poggia su basi Prof. 595 mm dotate di piedini regolabili.

Il portale TVBlank può essere Largh. 900-1200-1800 mm e H. 676-996 mm.

La componibilità prevede per il Sistema TVBlank le seguenti tipologie di utilizzo:

- 1 - portale inserito tra 2 armadi battenti che non presentino cambio di profondità;
- 2 - portale inserito tra 1 armadio battente ed 1 fianco speciale sempre Sp. 18 mm;
- 3 - portale inserito tra 2 fianchi speciali Sp. 18 mm di cui 1 sempre solidale con altri elementi componibili SILOMA.

Non sono possibili tagli a misura.

The TVBlank System is a overhead-bar supported unit, equipped with cable bushing to facilitate the use of any electronic device such as television, DVD player, video game consoles etc.

The TVBlank element rests on D. 595mm bases equipped with adjustable feet. The TVBlank element can be W. 900-1200-1800mm and H. 676-996mm. The modularity provides for the TVBlank System the following types of use:

- 1 - element inserted between 2 cabinets that do not present change of depth;
- 2 - element inserted between 1 door cabinet and 1 special side always Th. 18mm;
- 3 - element inserted between 2 special sides Th. 18 mm of which 1 always in commun with other SILOMA modular systems.

Custom cuts are not possible.

Le système TVBlank est un portail soutenu par une barre pont, équipé d'une douille passe-câbles pour faciliter l'utilisation de tout dispositif électronique tel que télévision, lecteur DVD, consoles de jeux vidéo etc.

Le portail TVBlank repose sur des éléments bas Prof. 595 mm équipés de pieds réglables.

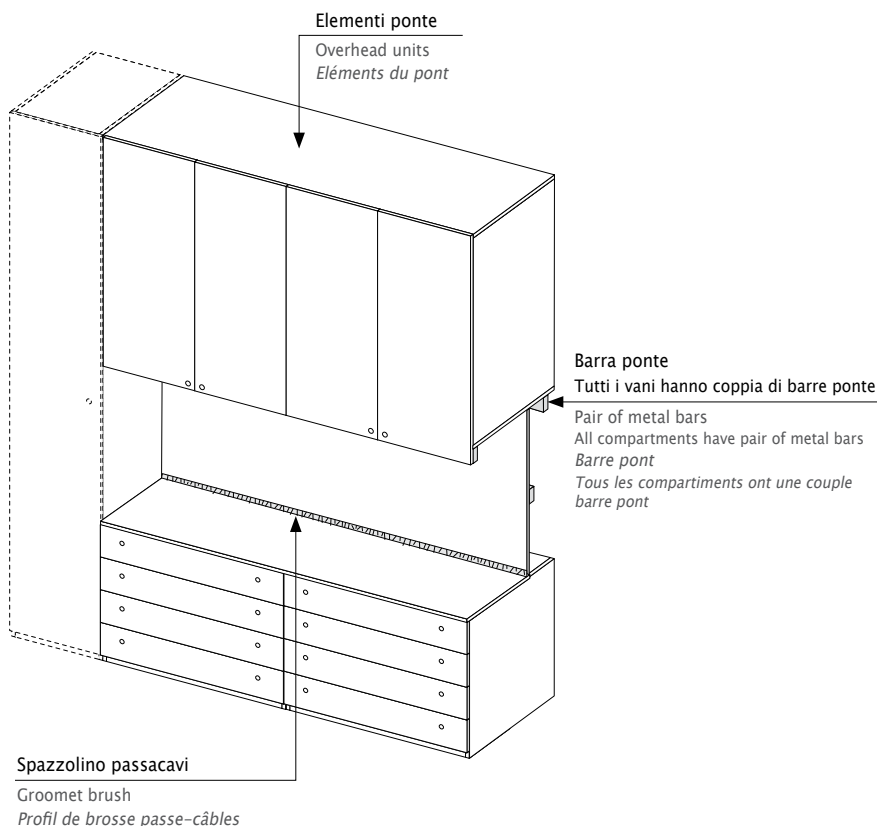

Le portail TVBlank peut être:

Larg. 900-1200-1800 mm et H. 676-996 mm.

La modularité prévoit pour le système TVBlank les utilisations suivantes:

- 1 - portail inséré entre 2 armoires battantes qui ne présentent pas changement de profondeur;
- 2 - portail inséré entre 1 armoire battante et 1 côté spécial toujours ép. 18 mm;
- 3 - portail inséré entre 2 côtés spéciaux ép. 18 mm dont 1 toujours solidaire avec d'autres éléments SILOMA.

Il n'est pas possible de couper sur mesure.

EUREKA, la nuova definizione del mondo dedicato alle librerie.

Un programma che progetta la libreria come centro funzionale della vita quotidiana, con la massima versatilità stilistica e compositiva.

Sistema libreria ad elementi verticali dalla massima funzionalità ed originalità estetica. Pali e supporti in alluminio, disponibili in finitura Bianco o Brunito.

– La libreria EUREKA si compone di un palo di alluminio estruso che va fissato a parete tramite l'apposito tassello superiore. Il palo presenta 2 scanalature per tutta l'altezza dove vanno fatti scivolare i vari supporti e fissati con l'apposita vite all'altezza desiderata.

– Le mensole sono Prof. 320 mm e 440 mm, Spess. 30 mm, sono sempre comprensive di 2 supporti inferiori ma non sono predisposte al fissaggio, in modo che si possa scegliere la distanza dal muro preferita.

È possibile agganciare tramite i supporti in dotazioni, anche elementi contenitori di Prof. 320 mm e 440 mm fino ad una altezza di 498 mm (si sconsiglia l'uso di contenitori di profondità e altezza diversa da quelli proposti).

EUREKA, the new definition of the world dedicated to bookcase.

A program that designs the library as a functional center of daily life, with maximum stylistic and compositional versatility.

Vertical elements bookcase system with maximum functionality and aesthetic originality. Poles and supports in aluminium, available in white or burnished finish.

– The EUREKA bookcase consists of an extruded aluminium pole which is fixed to the wall by means of the appropriate upper dowel. The pole has 2 grooves for the entire height where to slide the various supports and fixed with the appropriate screw at the desired height.

– The shelves are D. 320 mm and 440 mm, Th. 30 mm, they always include 2 lower supports but are not predisposed so it is possible to choose the preferred distance from the wall. It is possible to attach through the supports provided also cabinets D. 320 mm and 440 mm up to a height of 498 mm (we do not recommend the use of cabinets of depth and height different from those proposed).

Eureka, la nouvelle définition du monde des bibliothèques.

Un programme qui conçoit la bibliothèque comme centre fonctionnel de la vie quotidienne, avec une polyvalence stylistique et compositionnelle maximale.

Système de bibliothèque à éléments verticaux avec une fonctionnalité maximale et une originalité esthétique.

Poteaux et supports en aluminium, disponibles en finition Bianco ou Brunito.

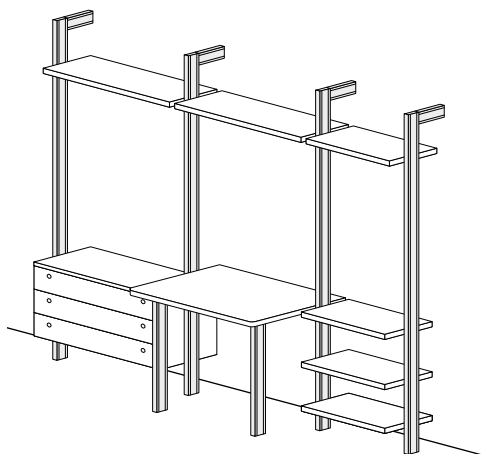

– La bibliothèque EUREKA se compose d'un poteau en aluminium extrudé qui doit être fixé au mur avec la goupille supérieure. Le poteau présente 2 rainures pour toute la hauteur où les différents supports doivent être fixés à la hauteur désirée avec la vis appropriée.

– Les étagères sont en prof. 320 mm et 440 mm, épais. 30 mm, elles comprennent toujours 2 supports inférieurs mais elles ne sont pas prédisposées pour la fixation, de sorte que vous pouvez choisir la distance du mur préférée.

Il est possible aussi d'accrocher par les supports des éléments de Prof. 320 mm et 440 mm jusqu'à une hauteur de 498 mm (nous déconseillons l'utilisation de conteneurs de profondeur et de hauteur différentes de celles proposées).

Examples of out-of-square comers / *Exemples de gestion hors équerre*

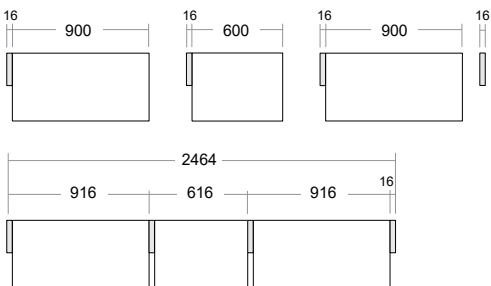

Calcolo larghezza totale
Total width calculation / *Calcul de la largeur totale*

I moduli sono comprensivi del palo di sinistra.
L'ingombro totale in larghezza di composizioni formate da più moduli deve prevedere sempre il palo di chiusura.

All modules include a left side pole.
The overall width of arrangements made up of various modules must always include a side pole.

*Les modules comprennent le poteau gauche.
Le calcul de la largeur totale de compositions formées de plusieurs modules doit toujours inclure le poteau de terminaison.*

Cabina WALL

Walk-in wardrobe / *Dressing armoire*

La cabina prevede l'attrezzaggio di una parete tramite cremagliere verticali (H. 2253 – 2413 – 2573 mm) e di pannelli.

La cremagliera è un profilato di alluminio estruso Brunito in tutta l'altezza del pannello e predisposta con foratura per l'inserimento dei supporti mensola e cassettiere a passo 320 mm.

Alle cremagliere si possono agganciare: mensole e cassettiere.

The panelling consists of mounting a wall with vertical slotted rails (H. 2253 – 2413 – 2573 mm) and panels.

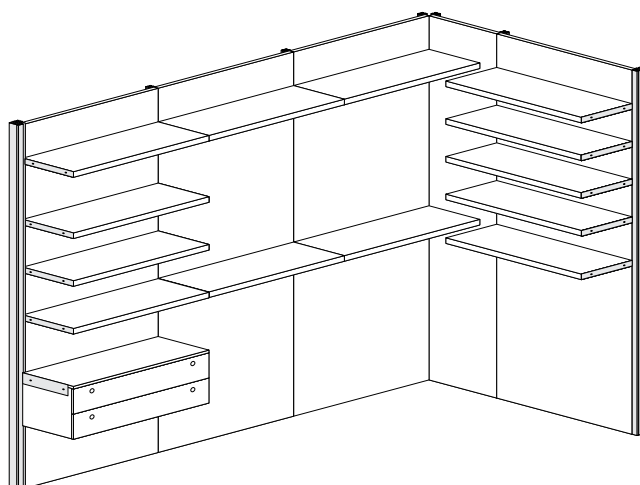

The slotted rail is an aluminium profile extruded in the whole height of the panel and prepared with drilling for the insertion of the shelf supports and drawers at a pitch of 320 mm, adjustable in height and frontally.

To the slotted rail is possible to fix shelves and drawers.

Le dressing prévoit l'équipement d'un mur par des crémaillères verticales (H. 2253 – 2413 – 2573 mm) et de panneaux.

La crémaillère est un profilé en aluminium extrudé dans toute la hauteur du panneau et prédisposé avec perçage pour l'insertion des supports d'étagère et de tiroirs à pas 320 mm, réglable en hauteur et à l'avant.

Les étagères et les blocs tiroirs peuvent être attachées aux crémaillères.

Calcolo larghezza totale

Total width calculation / *Calcul de la largeur totale*

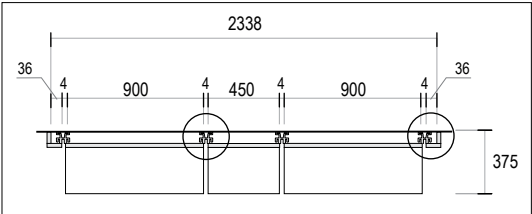

Per calcolare la misura totale della composizione, sommare l'ingombro di tutti i pannelli e delle cremagliere. Per il montaggio da muro a muro va conteggiato 10 mm di tolleranza.

To calculate the total size of the composition, add up the dimensions of all the panels and slotted rail. For wall-to-wall mounting, a tolerance of 10 mm shall be counted.

Pour calculer la mesure totale du dressing, additionner l'encombrement de tous les panneaux et des crémaillères. Pour la pose d'un mur à l'autre, 10 mm de tolérance doivent être comptés.

NOTE TECNICHE

TAGLI IN ALTEZZA

I tagli vengono sempre effettuati nella parte alta degli elementi (minimo 1 cm.).

TAGLI IN LARGHEZZA

Elementi con ante a bordo dritto: la riduzione minima possibile è di 40 mm.

TAGLI IN PROFONDITÀ

La riduzione standard minima possibile è di 100 mm.

Per tagli a misura di elementi non specificati consultare le note tecniche inserite nelle varie sezioni.

Il costo di più tagli sullo stesso elemento sarà dato dalla somma dei vari tagli.

Non vengono realizzati tagli su cassetti e cassettiere interne.

ATTENZIONE: le colonne ridotte in profondità devono sempre essere ancorate alle pareti tramite dei tasselli ad espansione.

TECHNICAL NOTES

REDUCTION IN HEIGHT

The reduction are always made at the top part of the elements.

REDUCTION IN WIDTH

Elements with doors on a straight edge: the minimum reduction possible is 40 mm.

REDUCTION IN DEPTH

The minimum standard reduction possible is 100 mm.

For unspecified customization for elements, see the technical notes in the various sections.

The cost of multiple reduction on the same item will be given by the sum of the different reduction.

No deep cuts are made on internal drawers.

ATTENTION: bookcase that are reduced in depth must always be anchored to the walls by means of expansion plugs.

NOTES TECHNIQUES

DECOUPES EN HAUTEUR

Les découpes sont toujours effectuées dans la partie supérieure des éléments.

DECOUPES EN LARGEUR

Éléments avec portes à bord droit: la réduction minimale possible est de 40 mm.

COUPES EN PROFONDEUR

La réduction standard minimale possible est de 100 mm.

Pour les découpes d'éléments non spécifiés, voir les notes techniques dans les différentes sections.

Le coût de plusieurs découpes sur le même élément sera donné par la somme de différents découpes.

Les découpes en profondeur pour les tiroirs ne sont pas possibles.

ATTENTION: les colonnes réduites en profondeur doivent toujours être accrochées au mur par des chevilles à expansion.

FORATURA PERSONALIZZATA

Oltre alla foratura di serie è possibile realizzare anche la foratura a passo 32 mm con una maggiorazione per fianchi e fianchi divisorio terminali.

CUSTOM DRILLING

In addition to the standard drilling (pitch 320 mm), it is also possible to drill 32 mm pitch with a surcharge for side panels and dividers.

PERÇAGE PERSONNALISÉ

En plus du perçage standard (pas 320 mm), il est également possible de réaliser le perçage à pas 32 mm avec un supplément sur les côtés.

Maggiorazione foratura fianco

Surcharge for side panel drilling

Supplément perçage côtés

+ € 25

Maggiorazione foratura fianco divisorio terminale

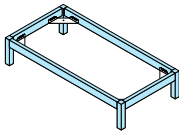

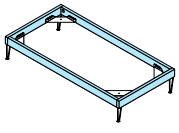

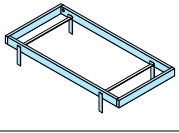

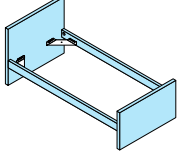

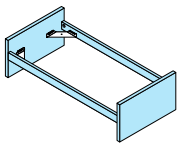

Surcharge for divider drilling

Supplément perçage côté terminal

+ € 50

A 3D diagram of a rectangular prism. The front vertical edge is labeled 1070. The top horizontal edge is labeled 110. The depth edge, receding into the background, is also labeled 110. The prism is shaded with a light gray color and has dashed lines indicating its internal structure.

A 3D perspective diagram of a rectangular block. The front vertical edge is labeled 1070. The top horizontal edge is labeled 50. The depth edge, receding into the background, is also labeled 50.

A diagram of a rectangular panel, likely a door or window, shown in a perspective view. To the left of the panel, a vertical dimension line with arrows at both ends is labeled with the number 730, indicating the height of the panel.

A 3D perspective drawing of a rectangular block. The front vertical edge is labeled 1050. The top horizontal edge is labeled 130. The right vertical edge is labeled 130.

Il Divano 21 ha di serie la rete a doghe strutturale ed il letto estraibile con meccanismo per materasso a molle H.210 mm.

Le reti dei 2 letti hanno la stessa altezza da terra e sono affiancabili.

Non sono previsti tagli a misura.

The Sofa 21 has as standard the structural slatted bed base and the pull-out bed with spring mattress mechanism H.210 mm.

The slatted bed base of the 2 beds have the same height from the ground and are side by side.

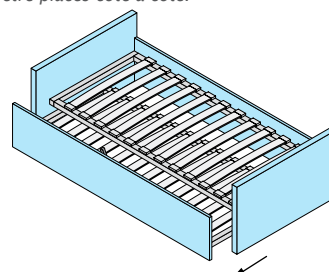

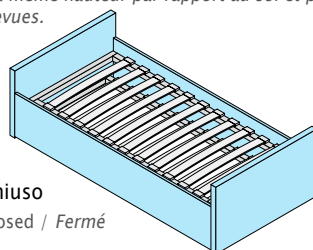

No customizations available.

Le Canapé 21 est équipé en série du sommier à lattes structurel et du lit amovible avec mécanisme pour matelas à ressorts H.210 mm.

Les sommiers des 2 lits ont la même hauteur par rapport au sol et peuvent être placés côte à côte.

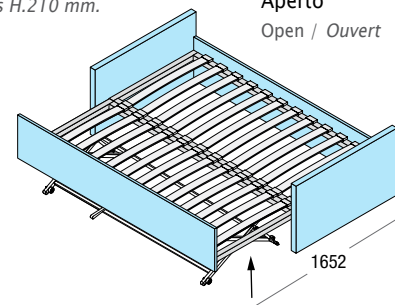

Découpes sur mesure pas prévues.

Il letto fisso TRIS ha di serie la rete a doghe strutturale.
Si consiglia l'utilizzo di un materasso P.1950 mm.

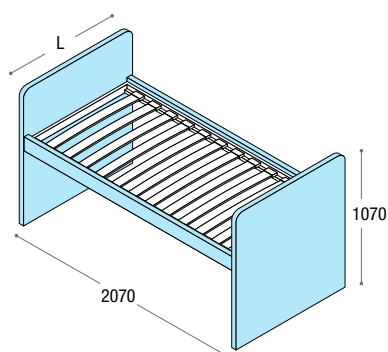

The fixed bed TRIS has as standard the structural slatted bed base.
We recommend using a mattress D.1950 mm.

Le lit fixe TRIS a en standard le sommier à lattes structurel.
Nous recommandons l'utilisation d'un matelas P.1950 mm.

I letti KOMBO si creano abbinando a piacere il "portale letto" con i contenitori a giorno, con ante o cassetti dedicati.
Come optional sono disponibili il set griglie per l'aerazione ed i fermamaterasso.

KOMBO beds can be created by combining the "bed portal" with open containers, with doors or dedicated drawers.
As an option, there is a set of ventilation grids and mattress stoppers.

Les lits KOMBO peuvent être créés en combinant à volonté le "portail lit" avec des conteneurs ouverts, avec portes ou tiroirs dédiés.
En option, le set de grilles pour l'aération et les systèmes bloque-matelas sont disponibles

I letti a castello Compact SINGLE hanno di serie la rete a doghe strutturale e una scaletta in metallo strutturale e fissa.
Nella parte superiore sono dotati di un pannello sottorete parapolvere.
Non sono previsti tagli a misura.

ATTENZIONE!
I letti a castello Compact SINGLE vanno sempre fissati a parete.
La responsabilità del montaggio e la scelta di viti e tasselli di fissaggio, verificata in funzione del tipo di parete, è a carico della ditta che esegue montaggi.
L'azienda non è da ritenersi responsabile di eventuali danni causati da una errata scelta di viti e tasselli in relazione allo specifico tipo di muro.

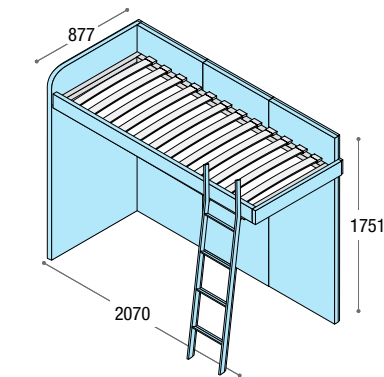

Compact SINGLE bunk beds come standard with a structural slatted base and a structural and fixed metal ladder.
In the upper part they are equipped with a dust-proof under-base panel.
No custom cuts are foreseen.
ATTENTION!
Compact SINGLE bunk beds must always be fixed to the wall.
The assembly and the choice of fixing screws and plugs, verified according to the type of wall, is responsibility of the company that carries out assembly.
The company cannot be held responsible for any damage caused by an incorrect choice of screws and plugs in relation to the specific type of wall.

Les lits superposés Compact SINGLE sont équipés en standard d'un sommier à lattes structurel et d'une échelle métallique structurelle fixe.
Dans la partie supérieure, ils sont équipés d'un panneau sous-sommier à lattes anti-poussière.
Aucune coupe personnalisée n'est prévue.
ATTENTION!
Les lits superposés Compacts SIMPLES doivent toujours être fixés au mur.
La responsabilité de la pose et du choix des vis et chevilles de fixation, vérifiées en fonction du type de mur, incombe à l'entreprise réalisant la pose.
La société ne peut être tenue responsable des dommages causés par un choix incorrect de vis et de chevilles par rapport au type spécifique de mur.

Sistema TVBlank

TVBlank system / Système TVBlank

Il Sistema TVBlank è un ponte a spalla sorretto da barra ponte, attrezzato con spazzolino passacavi per facilitare l'utilizzo di qualsiasi congegno elettronico come televisione, consolle videogiochi ecc.
Il portale TVBlank poggia su basi Prof. 595 mm dotate di piedini regolabili.
Il portale TVBlank può essere Largh. 900-1200-1800 mm e H. 676-996 mm.

La componibilità prevede per il Sistema TVBlank le seguenti tipologie di utilizzo:
1 - portale inserito tra 2 armadi battenti che non presentino cambio di profondità;
2 - portale inserito tra 1 armadio battente ed 1 fianco speciale sempre Sp. 18 mm;
3 - portale inserito tra 2 fianchi speciali Sp. 18 mm di cui 1 sempre solidale con altri elementi componibili SILOMA.

Non sono possibili tagli a misura.

The TVBlank System is a overhead-bar supported unit, equipped with cable bushing to facilitate the use of any electronic device such as television, DVD player, video game consoles etc.

The TVBlank element rests on D. 595mm bases equipped with adjustable feet.
The TVBlank element can be W. 900-1200-1800mm and H. 676-996mm.
The modularity provides for the TVBlank System the following types of use:

- 1 - element inserted between 2 cabinets that do not present change of depth;
- 2 - element inserted between 1 door cabinet and 1 special side always Th. 18mm;
- 3 - element inserted between 2 special sides Th. 18 mm of which 1 always in commun with other SILOMA modular systems.

Custom cuts are not possible.

Le système TVBlank est un portail soutenu par une barre pont, équipé d'une douille passe-câbles pour faciliter l'utilisation de tout dispositif électronique tel que télévision, lecteur DVD, consoles de jeux vidéo etc.

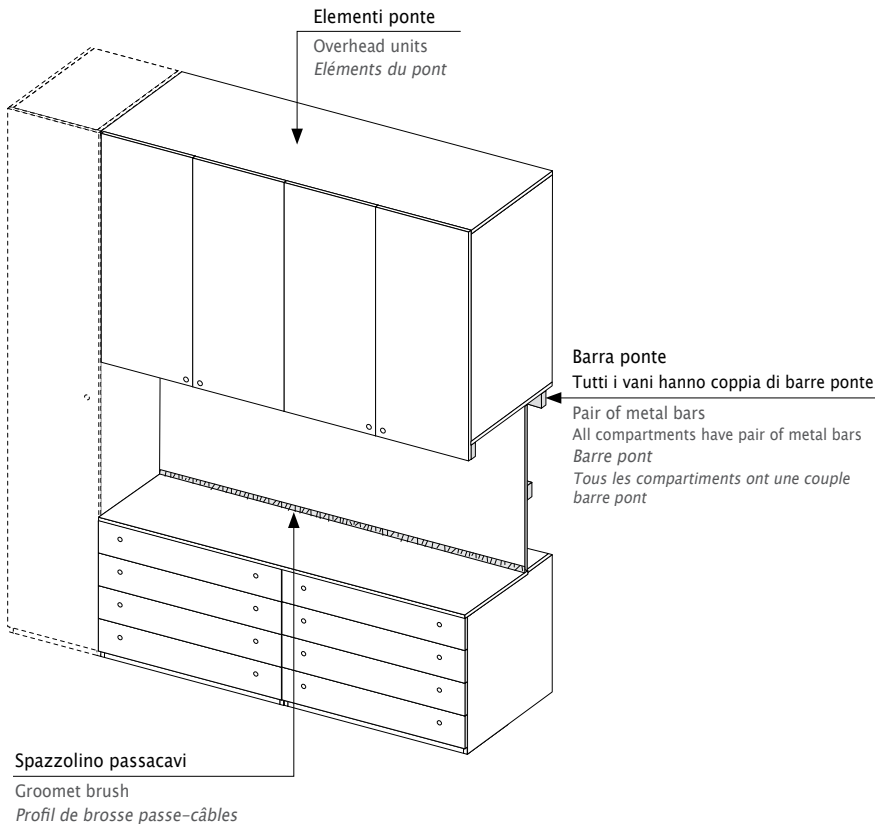

Le portail TVBlank repose sur des éléments bas Prof. 595 mm équipés de pieds réglables.

Le portail TVBlank peut être:
Larg. 900-1200-1800 mm et H. 676-996 mm.

La modularité prévoit pour le système TVBlank les utilisations suivantes:

- 1 - portail inséré entre 2 armoires battantes qui ne présentent pas changement de profondeur;
- 2 - portail inséré entre 1 armoire battante et 1 côté spécial toujours ép. 18 mm;
- 3 - portail inséré entre 2 côtés spéciaux ép. 18 mm dont 1 toujours solidaire avec d'autres éléments SILOMA.

Il n'est pas possible de couper sur mesure.

SCRITTOI SAGOMATI BORDATI SPESSORE

SHAPED DESKS WITH ABS EDGING / BUREAUX FAÇONNÉS AVEC BORD EPAIS

Possono essere eseguiti piani sagomati a richiesta solo se accompagnati da disegno e salvo approvazione del nostro ufficio tecnico.

Il raggio delle curve bordate deve essere minimo di 50 mm.

Il raggio degli spigoli non bordati interni è di 9 mm.

Calcolo del prezzo (moltiplicare i 2 lati di ingombro totale del piano)

Shaped panels can be executed on request only if accompanied by drawing and subject to approval of our technical office.

The radius of the edged curves shall be at least 50 mm.

The radius of the inner unedged edges is 9 mm.

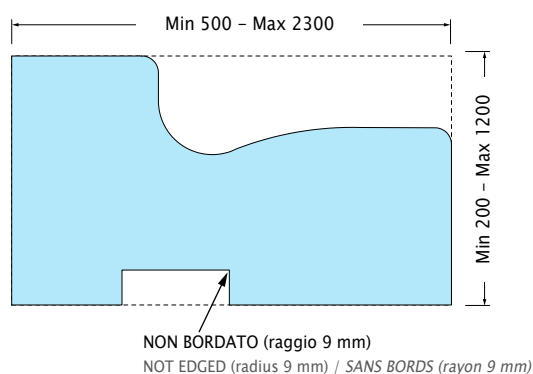

Calculation of the price (multiply the 2 sides of the total panel)

Les plans façonnés sur demande peuvent être réalisés seulement s'ils sont accompagnés d'un dessin et sous réserve de l'approbation de notre bureau technique.

Le rayon des courbes bordées doit être d'au moins 50 mm.

Le rayon des arêtes intérieures non bordées est de 9 mm.

Calcul du prix (multiplier les dimensions des 2 côtés de l'encombrement total du plan)

Bordati al mq.

With edging per sqm / Avec bord au m²

Minimo al pezzo

Minimum per piece / Minimum par pièce

MAGGIORAZIONE

SURCHARGE / SUPPLÉMENT

Per laccatura 2 lati al mq.

For laquer 2 sides sqm / Pour laque 2 faces au m²

* 2 serrature a cilindro per anta
2 cylinder locks per door
2 serrures à cylindre pour porte

+ € 90

A richiesta si possono applicare 2 serrature a cilindro sull'anta, che impediscono l'apertura accidentale del letto. *

Al momento dell'ordine specificare la maniglia scelta tra: D1 - D2 - RING.

ATTENZIONE: fissaggio a muro

On request, 2 cylinder locks can be applied to the door, which prevent accidental opening of the bed. *

When ordering specify the handle chosen between: D1 - D2 - RING.

ATTENTION: wall mounting

Sur demande, 2 serrures à cylindre peuvent être appliquées sur la porte, ce qui empêche l'ouverture accidentelle du lit. *

Au moment de la commande, spécifiez la poignée choisie parmi : D1 - D2 - RING.

ATTENTION : fixation au mur

Maggiorazioni (cad.):

Surcharges (each) / Suppléments (chaque)

* 2 serrature a cilindro per anta
2 cylinder locks per door
2 serrures à cylindre pour porte

+ € 90

A richiesta si possono applicare 2 serrature a cilindro sull'anta, che impediscono l'apertura accidentale del letto. *

Al momento dell'ordine specificare la maniglia scelta tra: D1 – D2 – RING.

ATTENZIONE: fissaggio a muro

On request, 2 cylinder locks can be applied to the door, which prevent accidental opening of the bed. *

When ordering specify the handle chosen between: D1 – D2 – RING.

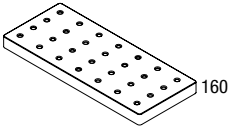

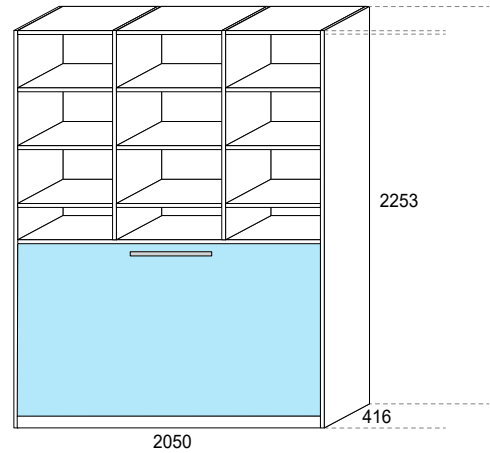

ATTENTION: wall mounting

Sur demande, 2 serrures à cylindre peuvent être appliquées sur la porte, ce qui empêche l'ouverture accidentelle du lit. *

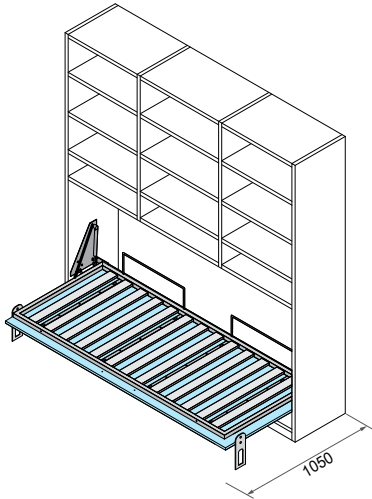

Au moment de la commande, spécifiez la poignée choisie parmi : D1 – D2 – RING.

ATTENTION : fixation au mur

Indicazioni per l'ordine Instructions for orders / Indications pour la commande

Le rilevazioni delle misure in altezza e in larghezza del vano devono essere effettuate sia all'estremità che al centro. Vanno indicate, al momento dell'ordine, le larghezze e le altezze di riferimento.
La responsabilità delle operazioni di montaggio è totalmente a carico del cliente che deve valutare le caratteristiche strutturali di parete e soffitto ed utilizzare i sistemi di montaggio più idonei. Il sistema non prevede la gestione di pareti fuori-squadra.

Measurements of the height and width of the niche must be taken at the top, at the bottom and at the centre. The reference widths and heights shall be indicated at the time of ordering. The responsibility for the installation operations is totally borne by the customer who must evaluate the structural characteristics of wall and ceiling and use the most suitable mounting systems. This element cannot be installed in case of non-square corner walls.

Les relevés de mesures en hauteur et en largeur de la niche doivent être effectués aux extrémités et au milieu de celle-ci. Il faudra indiquer dans la commande les largeurs et les hauteurs prises.
Le client est totalement responsable des opérations de pose. Il devra également analyser les caractéristiques structurelles du mur et du plafond et adopter les systèmes de pose les plus appropriés.
Ce système ne peut pas être utilisé au cas de murs avec angles hors-équerre.

Come rilevare le dimensioni del vano (LV) How to detect the size of the compartment (LV) Comment détecter la taille du compartiment (LV)

Rilevare le dimensioni del vano in più punti sia in larghezza che in altezza. Indicare, inoltre, la larghezza e l'altezza della parete dove si trova il vano da chiudere

Detect the size of the niche in multiple places in both width and height. Also indicate the width and height of the wall where the niche is located.

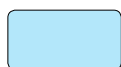

Détecter la taille du compartiment à plusieurs endroits en largeur et en hauteur. Indiquer également la largeur et la hauteur du mur où la niche se trouve.

Condizioni generali di vendita

General conditions of sale / *Conditions générales de vente*

La merce viaggia a rischio e pericolo dell'acquirente anche se venduta franco destino.

Eventuali difformità riscontrate tra la fornitura e l'ordine, nonché eventuali vizi o difetti dei prodotti consegnati, devono essere segnalati per iscritto a mezzo raccomandata, entro 8 giorni dal ricevimento della merce o, in ogni caso, entro 8 giorni dalla scoperta di vizi occulti; in questo caso, le contestazioni non potranno essere accettate se trascorsi 2 anni dalla data di consegna.

I termini di consegna assumono per la fornitrice valore puramente indicativo e non vincolante. Nessun danno diretto o indiretto può essere richiesto per mancata o ritardata esecuzione.

La conformità del campione, sia alla prima che alle successive forniture, non deve intendersi in senso tassativo giacché, possono sussistere margini di tolleranza sia per quanto attiene ai colori, che ai materiali, che alle misure.

La garanzia è limitata ai prodotti fabbricati integralmente dalla fornitrice che declina ogni responsabilità negli altri casi come: cattiva od errata installazione, danni causati da irregolare collocamento e funzionamento di impianti elettrici, gas, idraulici; difetti e danni causati da elettrodomestici per i quali il Committente farà valere i certificati di garanzia delle case costruttrici.

Le apparecchiature, o gli accessori impiegati nel corso delle forniture saranno, solo per quanto possibile, conformi ai campioni. Quando, per garantirsi gli approvvigionamenti, l'azienda fosse costretta a indirizzare verso altri fornitori l'acquisto di altri componenti, questi potranno risultare diversi anche se saranno sostanzialmente rispettate le caratteristiche qualitative e funzionali dei prodotti.

La fornitrice declina ogni responsabilità per eventuali inesattezze di stampa o per errate indicazioni sulle caratteristiche che non sono sostanziali nel prodotto.

Non si accettano resi di merce se non autorizzati dalla ditta Sigi s.r.l. I resi accettati dalla costruttrice, vengono accreditati allo stesso prezzo di fattura da voi pagato al momento dell'acquisto, addebitandovi eventuali parti deprezzate o da voi danneggiate.

Anche nel caso di contestazione, i pagamenti non possono essere sospesi. Il ritardo di pagamento, anche di una sola rata, autorizza la ditta fornitrice a chiedere l'integrale pagamento con l'addebito degli interessi di mora applicati al tasso bancario vigente, più l'addebito delle spese bancarie e del costo di gestione dell'insoluto. Inoltre non potranno essere evasi nuovi ordini fino al saldo degli insoluti.

La merce consegnata rimane di proprietà della ditta fornitrice sino al pagamento totale da parte del Committente.

A sua volta la fornitrice ha facoltà di ritirarla nel caso che non venisse effettuato il saldo totale.

Si riconoscono validi soltanto i pagamenti effettuati direttamente alla Fornitrice o ad un incaricato munito di regolare autorizzazione.

Eventuali pezzi su misura saranno presi in considerazione solo in caso di ordine scritto accompagnato da chiaro schizzo di realizzazione e saranno vagliati prima di essere accettati.

Il costo sarà effettuato a consuntivo. Resta inteso che per tali elementi su misura non sarà mai, dalla ditta Sigi s.r.l., accettato il reso.

Ad ogni effetto legale e per qualsiasi controversia derivante dal rapporto, le parti eleggono come Foro competente quello di Treviso.

I prezzi del seguente listino sono espressi in Euro, IVA esclusa.

L'azienda si riserva di introdurre senza preavviso eventuali modifiche tecnico/costruttive sul prodotto e sulle composizioni presentate.

Il presente listino stampato nel mese di Settembre 2025, annulla e sostituisce ogni precedente.

Condizioni generali di vendita

General conditions of sale / Conditions générales de vente

The goods travel at the risk and peril of the purchaser even if they are sold on carriage free to destination terms.

Any differences between the supply and the order and any defects or faults concerning the delivered products must be reported by registered letter no later than 8 days after having received the goods or no later than 8 days after having discovered any hidden defect. In the latter case, complaints will not be accepted if 2 years have elapsed since the delivery date.

Customer lead times are purely indicative and non-binding for the supplier. Claims for direct or indirect damages will not be accepted for lack of or late fulfilment of an order.

Compliance to samples during the first and subsequent supplies cannot be considered as binding because there may be tolerance margins concerning colours, materials and measurements.

Guarantees cover only products manufactured entirely by the supplier who refuses all responsibility in other cases, such as: bad or wrong installation, damage caused by wrong positioning or operation of electric, gas and water systems, defects and damage caused by electrical appliances for which the Customer will use the guarantees provided by their manufacturers.

Equipment and accessories used for supplies will comply with samples only where possible. If – to guarantee supplies – the manufacturer should be obliged to purchase different parts from other suppliers, although they may differ from the original items the essential quality and functionality of such products will, on the whole, be respected.

The supplier is not responsible for any printing inaccuracies or wrong information provided regarding any non-essential characteristics of products.

Unless authorised by Sigi s.r.l. returned goods will not be accepted. Any returns accepted by the manufacturer will be refunded at the price invoiced to, and paid by, the customer when the product was purchased minus any parts that have become depreciated or been damaged by the customer.

Payment cannot be stopped even in the event of disputes. Any delays in payments, even of just one instalment, will authorise the supplier to request full payment of all outstanding amounts plus interest on arrears applied at the bank rate in force as well as the bank fees and debt management costs. New orders will not be dispatched until all debts are paid in full.

All delivered goods will remain the property of the supplier until the Customer has paid for them in full.

Moreover, the supplier may take the goods back if their full price is not paid.

Only payments made directly to the supplier or to a representative to whom a legal authorisation has been given will be considered valid.

Requests for products altered in size will be taken into consideration only if a written order is placed accompanied by a clear sketch which will be assessed before being accepted.

The price of such products will be available after they have been produced. It is understood that Sigi s.r.l. will never accept returns of products altered in size.

The parties elect the Law Court of Treviso for all legal purposes and to settle any dispute that may arise between them.

The prices given in this price list are in Euro and do not include VAT.

The manufacturer is entitled to make any technical/constructive modification to products and to arrangements shown in this price list without prior notice.

This price list is printed in September 2025 and cancels and supersedes any preceding ones.

La marchandise voyage aux risques et périls de l'acheteur même si elle est vendue franco de port.

Toute différence détectée entre la fourniture et la commande ainsi que tout vice ou défaut sur les produits livrés devront être signalés par écrit, par lettre recommandée, dans les 8 jours qui suivent la réception de la marchandise ou, dans tous les cas, dans les 8 jours qui suivent la découverte des vices cachés. Dans ce cas, les contestations ne pourront pas être acceptées si un délai de 2 ans s'est écoulé à compter de la date de livraison.

Les délais de livraison ont une valeur purement indicative pour le fournisseur et ne sont pas contraignants. Aucune indemnité résultant d'un préjudice direct ou indirect ne sera due pour tout retard de livraison ou pour non livraison.

La conformité à l'échantillon, tant lors de la première fourniture que lors des fournitures suivantes, ne doit pas s'entendre au sens strict puisqu'il peut subsister des marges de tolérance quant aux coloris, aux matériaux et aux dimensions.

La garantie couvre uniquement les produits fabriqués intégralement par le fournisseur qui décline toute responsabilité dans les autres cas comme : installation mauve ou erronée, dommages causés par un emplacement non conforme ou par un fonctionnement défectueux des installations électriques, du gaz et hydrauliques et dommages causés par des électroménagers pour lesquels l'acheteur devra faire valoir les certificats de garantie des fabricants respectifs.

Les appareils ou les accessoires utilisés au cours des fournitures seront conformes, autant que possible, aux échantillons. Au cas où, pour garantir ses approvisionnements, la société serait obligée de s'adresser à d'autres fournisseurs pour l'achat d'autres composants, ceux-ci pourront être différents même si les caractéristiques qualitatives et fonctionnelles des produits seront substantiellement respectées.

Le fournisseur décline toute responsabilité pour toute inexactitude dans l'impression ou pour toute indication erronée sur les caractéristiques qui ne sont pas substantielles dans le produit.

Aucun retour de marchandise ne sera accepté sans l'accord préalable de la part de la société Sigi. Srl. Les retours acceptés par le fabricant seront remboursés au même prix indiqué dans la facture et payé à l'achat, en facturant toutefois toute partie dépréciée ou endommagée.

Même en cas de contestation, les paiements ne pourront en aucun cas être suspendus. Le retard de paiement, même d'une seule échéance, autorise le fournisseur à demander le paiement intégral avec ajout des intérêts moratoires appliqués au taux bancaire en vigueur, des frais bancaires et des coûts de gestion de l'impayé. En outre, il ne sera pas possible de donner suite à de nouvelles commandes tant que les impayés n'auront pas été soldés.

La marchandise livrée resta la propriété du fournisseur jusqu'au paiement intégral de la somme de la part de l'acheteur.

À son tour, le fournisseur aura le droit de la retirer au cas le montant total ne serait pas payé.

Seuls les paiements effectués directement au fournisseur ou à une personne munie d'une autorisation conforme seront reconnus comme valables.

Tout élément sur mesure ne sera pris en considération que dans le cas d'une commande écrite accompagnée d'un dessin clair pour sa réalisation et sera préalablement examiné avant d'être accepté.

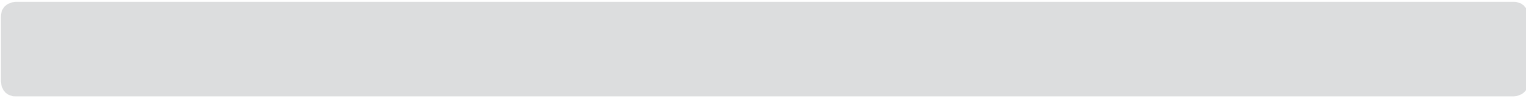

Le prix sera défini après réalisation. Il est bien entendu que tout retour d'éléments sur mesure ne sera en aucun cas accepté de la part de la société Sigi S.r.l.

Pour ce que de droit et pour toute controverse dérivant du contrat, les parties considèrent le tribunal de Trévise (Italie) comme compétent.

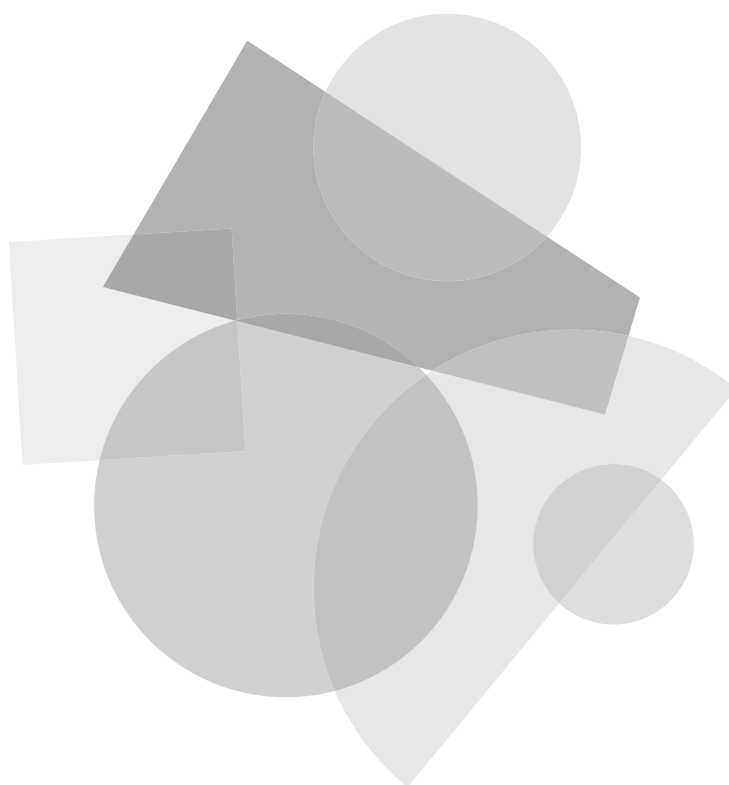

Les prix de la présente liste des prix sont indiqués en euros hors TVA.

La société se réserve le droit d'introduire, sans aucun préavis, des modifications techniques/de fabrication sur ces produits et sur les compositions présentées.

La présente liste des prix, imprimée en Septembre 2025, annule et remplace les précédentes versions.
